MOTIONS AND RESOLUTIONS—CONTINUED.

Mr. Spooner offered the following resolution:

Whereas the Efficiency and Economy Commission has drawn a proposed bill for the reorganization of the civil administration of the State of Minnesota, and such bill will be introduced soon,

Be it therefore resolved, by the House of Representatives, the Senate concurring, that a joint special committee be appointed to receive, consider, hold public hearings on, recommend concerning, and report on said bill to both houses of the Legislature; that said committee be composed of fourteen (14) members, of whom five (5) shall be appointed by the President of the Senate, and nine (9) by the Speaker of the House; that said bill be referred to such Committee, and that said Committee have power to compel the attendance of witnesses and the production of documents.

Which, upon motion of Mr. Spooner, was ordered printed in the Journal and laid on table.

Messrs. Lennon and Dunleavy offered the following resolution:

Whereas, during the last year, death has removed from earthly associations Michael J. Sullivan, a member of this body during

the sessions of 1909, 1911 and 1913; a representative of the Thirty-eighth District, and one of the best known and best loved members of the Legislature during the time of his membership; and,

Whereas, in his death the state lost a faithful servant, and those who knew him a sincere and earnest friend; his whole life being marked by genial friendships, kindly human relations, wholehearted regard for the principles in which he believed, and an unswerving devotion to the best interests of the state as he saw them; and

Whereas, he will be greatly missed in this House, where his counsels were honored and appreciated, where his personal charm and kindliness of manner contributed greatly to the spirit of harmony and good feeling which prevailed, and where his fairness and conscientiousness so impressed his fellow members that they respected him even in disagreement;

Therefore, be it resolved, That the House of Representatives hereby officially declares its sense of loss in his untimely death; expresses its deep appreciation of his many sturdy and virtuous qualities; and that it extend to his bereaved family its sympathy; and that this resolution, as adopted, be sent to his family in token of our action, and as a mark of our esteem and affection for our departed friend and brother.

And be it further resolved, That the Chief Clerk be and he is hereby authorized to have an engrossed copy of these resolutions and the same be sent to family of the deceased.

Which was unanimously adopted by a rising vote.

Messrs. Dunleavy and Lennon offered the following resolution:

Whereas, since the last session of this Legislature, William H. Thielen, a representative from the Thirty-eighth District in the session of 1913, has departed this life; and

Whereas, his death put an untimely end to a career of the highest promise, a life giving every indication of future achievement, as it had been marked by energy, ability, unselfishness, and loyalty; and

Whereas, he had made many friends in this House, despite his quietness and modesty and his desire to avoid the lime light, who appreciated his rectitude and his firmness and his good judgment in all matters of legislation, and who came to admire him more as they knew him better;

Now, therefore, be it resolved by the House of Representatives that this body express officially its sense of bereavement in the death of this young man who had by his own inherent merits won

so high a place in his own city and in the state; and that we extend to his bereaved family our condolences and sympathy and that a copy of these resolutions be sent to his family as an expression of our regard.

And be it further resolved, That the Chief Clerk be and he is hereby authorized to have an engrossed copy of these resolutions and the same be sent to the family of the deceased.

Upon the appearance of a quorum, the Journal of the preceding day shall be read by the Chief Clerk, unless otherwise ordered, and any errors therein may be corrected by the House.

3. *Order of Business.*

After the reading of the Journal, the order of business of the day, shall be as follows:

4. *Bills—How Introduced.*

A member or committee desiring to introduce a bill shall place the same in the hands of the Speaker before the opening of the session.

All memorials and joint resolutions shall be presented, received and considered in the same manner as bills, and shall be bound in the regular House file binder, and take the same course as a bill.

All bills and joint resolutions of whatever nature which carry an appropriation must be introduced before the second Tuesday of March, in order that the Committee on Appropriations may have ample time to consider same, and examine the claims or the appropriations called for therein, and that no bill or joint resolution which carries an appropriation can be received by the House after the date as herein provided, unless authorized by a two-third vote of the whole House. This rule, however, shall not apply to bills or joint resolutions introduced by request of the Governor under the constitutional provision as provided for in Article 4, Section 1, of the Constitution of the State of Minnesota; nor shall it apply to bills introduced by the Committee on Appropriations.

Every bill and resolution shall be introduced in triplicate and shall have prefixed thereto the name of the member, members or committee introducing it.

All bills introduced in the House shall be so framed that when any section or subdivision or chapter of any existing law is to be amended, repealed or revised, the said section, subdivision or chapter shall in each and every case be given in full as it is designed to read when enacted; and all new matter contained in any bill which proposes to amend or revise any section, subdivision or chapter of any existing law by inserting or adding such new matter, shall be underscored and, when the bill is printed, shall be italicised. If the proposed amendment or revision of any section, subdivision or chapter of any existing law is to be affected by the omission of any part thereof without the substitution therefor of any new matter, the bill proposing such amendment or revision must be identical with the section, subdivision or chapter of the existing law sought to be changed; having the portion, or portions of such existing law, which it is proposed to omit stricken out by a line or lines drawn through the word or words constituting such portion or portions to be omitted.

The title of every bill shall indicate the subject thereof and not be merely a reference to the page number of section of the existing law, sought to be repealed, amended or revised, but the title shall contain such descriptive words as will indicate to what subject the bill refers.

No bill, unless framed as herein provided, shall be received or read by the chief clerk, unless otherwise especially ordered by the House.

5. *First Reading and Reference of Bills.*

All bills, memorials and joint resolutions shall be read at length upon their introduction unless objected to.

If objection is made, the question shall be: "Shall the bill be rejected?"

If no objection be made, or if the question to reject be lost, the bill shall, after reading, go to its appropriate Standing Committee, except when introduced by such Committee.

Every bill introduced, except when introduced by a Committee as above provided, containing an amendment to an existing law of the State, shall first be referred to the appropriate committee of the House appointed with reference to the subject matter contained in the law proposed to be amended.

All bills, whether emanating from the House or the Senate, carrying an appropriation, shall be referred to the Committee on

Appropriation for action, by the committee before the second reading of the bill; and the fact that the bill carries an appropriation shall be noted by the committee in its report returning the same.

6. *Reports of Committees.*

The chairman of a committee reporting the action taken by his committee upon bills, submitted to it, shall do so upon the form provided for such report, and such reports shall be printed in the Journal of the House; and, when so presented, shall be deemed to be in the possession of the House for its adoption or rejection.

In the event of a minority report, the majority and minority reports shall be made separately from the regular committee reports.

7. *Quorum on Committees.*

A majority of the members of any standing or special committee shall constitute a quorum. This rule shall not apply to the Committee on Judiciary where 15 members shall constitute a quorum.

8. *Second Reading of Bills.*

All bills, concurrence reports, memorials, orders, resolutions and votes requiring the approval of the Governor shall, after a second reading, be considered in a committee of the whole before they shall be finally acted upon by the House. Unless otherwise ordered, bills authorizing the expenditure of money and joint memorials to Congress, only, shall require a second and third reading.

9. *Third Reading of Bills.*

No amendments shall be received on the third reading except to fill blanks or amend titles, without the unanimous consent of the House; and all bills and resolutions may be committed at any time previous to their passage. If any amendment be reported upon such commitment by any other than a committee of the whole, it shall again be read a second time, considered in the committee of the whole and the question for a third reading and passage then put.

10. *Disposition of Senate Bills.*

When a Senate file has been received by the House, with a message announcing that the same has passed the Senate, such bill shall be referred to the appropriate standing committee; provided,

however, that when a Senate file is received, the provisions of which are stated by a member to be identical with those of a House file, which has already been considered by one of the committees of the House and is on General Orders or the Calendar, such Senate file shall be referred to the Committee on Engrossment for comparison, which committee shall report forthwith whether the said Senate file is identical with the House file. And, if reported identical, such Senate file may, by a majority vote, be substituted for the House file (the latter, in such case being considered withdrawn) and shall take the place of the House file; provided, however, that the fact that the bills are identical shall be entered in the Journal.

11. *Committee of the Whole.*

When the House has arrived at the General Orders of the day, they shall go into a Committee of the Whole upon General Orders. No business shall be in order unless considered or passed or the committee arise. And, unless a particular bill is ordered up, the Committee of the Whole shall consider, act upon or pass the General Orders according to order of their reference.

In forming a Committee of the Whole House, the Speaker shall appoint a chairman to preside.

Bills committed to the Committee of the Whole House shall, in the Committee of the Whole thereon, be first read through unless the committee shall otherwise order, and then read and debated by sections, leaving the title to be last considered. All amendments shall be in writing, in duplicate, and reported to the House by the Chairman.

12. *Rules of the House to Apply to Committee of the Whole.*

The rules of the House shall be observed in the Committee of the Whole, so far as may be applicable; except that the yeas and nays shall not be called, the previous question forced and speaking limited. No bill can be excepted from the report without a majority vote.

A motion that the Committee rise shall always be in order and shall be decided without debate.

13. *General Order of the Day.*

The Speaker shall cause the Chief Clerk to make out a list of all bills, resolutions and reports of Committees of the Whole House, and which are not made a Special Order, and to number the same.

This list shall be called the "General Orders of the Day"; and items listed thereon shall be taken up in the order in which they are numbered, unless otherwise ordered by a majority of the Committee. General Orders, together with all bills included therein required to be printed under the Rules or Orders of the House, shall be printed and placed upon the members' desks at least two days before the same are to be considered in the Committee of the Whole.

Each member of the House shall leave on or under his desk, each time the House adjourns for the day, his file binder for bills. It shall be the duty of the clerk of the House to have placed in each binder one copy of each bill to be printed under the Rules or Orders of the House at least forty-eight hours before the same shall be considered in the Committee of the Whole, and under the first order of business each day, said Clerk shall report to the House what bills he has placed in the binders.

If progress is reported on a bill by the Committee for three days, such bill shall go to the foot of General Orders, unless otherwise ordered by a majority vote.

14. *Special Orders.*

Bills may be made the order of the day for a special time. Such bills shall be entered upon a separate list, to be known as "Special Orders." Bills may be made a Special Order by a majority vote of the entire House upon two days' notice.

When the time arrives for the consideration of any Special Order, the House shall proceed to the consideration of the bill or bills upon the said Special Order in the order in which they are respectively listed; and after consideration they shall immediately be read the third time and placed upon final passage.

DUTIES AND PRIVILEGES OF OFFICERS AND MEMBERS.

15. *Duties of the Speaker.*

(a) The Speaker shall preside over the House, and be charged with all the powers and duties pertaining to such presiding officers.

(b) He shall preserve order and decorum, and in case of disorderly conduct or disturbance in the galleries or the lobby, he, or the Chairman of the Committee of the Whole House, may order the same to be cleared.

(c) He shall have general control, except as provided by Rule or law, of the Hall of the House and of the corridors and passages

and of the rooms assigned to the use of the House, until further ordered.

(d) He shall sign all acts, addresses, joint resolutions, writs, warrants and subpoenas of, or issued by order of the House; and he shall decide all questions of order, subject to an appeal by any member.

The Speaker shall not vote on appeals from his own decisions.

16. *Speaker Pro Tempore.*

The presiding officer may call a member to the Chair, but such substitution shall not extend beyond an adjournment. In the absence of the presiding officer, one of the members shall be by a majority vote to preside temporarily, until the return of the regular presiding officer.

17. *Duties of Members.*

When the House adjourns, the members shall keep their seats until the Speaker announces the adjournment.

Every member, before speaking, shall rise from his seat and respectfully address the Speaker, but shall not proceed to speak further until recognized by the Chair. When two or more members rise at once, the Speaker shall designate which shall speak first.

18. *Explaining or Changing Vote.*

No member shall be allowed to explain his vote or discuss the question while the yeas and nays are being called; and no member shall be allowed to change his vote after the same is announced from the chair.

19. *Name of Member Offering Bills, Etc., to Go on Journal.*

In all cases where a bill, order, resolution or motion shall be entered on the Journal of the House, the name or names of the member or members offering the same shall be entered on the Journal.

20. *Absence of Members and Officers.*

No member or officer of the House shall, unless from illness or some other sufficient cause he be, unable to attend, absent himself from any session of the House during the entire day without having first obtained leave of absence from the Speaker.

21. *Duties of the Chief Clerk and Assistants or Employees.*

Neither the chief clerk nor his assistants or employees shall permit any records or papers belonging to the House to be taken out of their custody, otherwise than in the regular course of business. The Chief Clerk shall report any missing papers to the Speaker. He shall have general supervision of all clerical duties appertaining to the business of the House; shall perform, under the direction of the Speaker, all the duties pertaining to his office, and shall also keep a book showing the situation and progress of all bills, memorials, and joint resolutions.

22. *Clerical Corrections to Bill.*

(a) Minor clerical errors in any bill, memorial or resolution such as errors in orthography or grammar, or the incorrect use of one word for another (as "affect" for "effect") or wrong numbering or references, whether such errors occur in the original bill or any amendment thereto, shall be corrected by the Chief Clerk, as a matter of course, upon the approval of the chairman of any committee to which the bill was referred.

(b) The Chief Clerk shall insert the enacting clause in any bill before its passage, if the same shall have been omitted.

(c) Any corrections made by the Clerk under this rule shall be noted by him in the Journal.

(d) Webster's New International Dictionary shall be the standard authority in matters falling under the above rules.

23. *No One to Remain by the Clerk's Desk.*

No member or other person shall remain by the Clerk's desk when the yeas and nays are being called.

24. *Duties of the Sergeant-at-Arms.*

It shall be the duty of the Sergeant-at-Arms to execute all orders of the House or its presiding officer; to perform all the duties that may, from time to time, be assigned to him connected with the police and good order of the House; to exercise supervision over the ingress and egress of all persons to and from the chamber; to see that all messages, etc., etc., are promptly executed; that the hall is properly ventilated and open for the use of members; and to perform all other services pertaining to the office of Sergeant-at-Arms.

25. Smoking Prohibited.

No person shall be permitted to smoke in the House Chamber while that body is in session. The Sergeant-at-Arms is charged with the duty of enforcing observance of this rule.

26. Order in Debate.

No member shall speak more than twice on the same subject without leave of the House, nor more than once until every other member wishing to speak on the pending question shall have spoken.

27. Motions.

No motion shall be debated or put unless the same be seconded. It shall be stated by the Speaker before debate, and any such motion shall be reduced to writing if the Speaker or any other member requires it.

After a motion has been stated by the Speaker, it shall be deemed to be in the possession of the House, but may be withdrawn by the mover at any time before amendment or decision; but all motions, resolutions or amendments shall be entered in the Journal unless withdrawn the same day.

28. Motion to Adjourn.

A motion to adjourn shall always be in order except during roll call.

When a motion to adjourn is made and seconded it shall be in order for the Speaker, before putting the question, to permit any member to state any fact to the House relative to the condition of the business of the House which would seem to render it improper to adjourn at that time. Such statement, however, shall not be debatable and shall not, in any case, occupy more than two minutes.

29. Precedence of Motions.

When a motion is under debate, no motion shall be received but:

1. To adjourn.
2. To lay on the table.
3. For the previous question.
(Which three motions shall be decided without debate.)
4. To commit.
5. To postpone to a day certain.
6. To amend.
7. To postpone indefinitely.

These several motions shall have precedence in the foregoing order; but the previous question having been seconded and the main question ordered, a motion to lay on the table shall not be in order.

30. *The Previous Question.*

(a) The previous question shall be in this form: "The gentleman from _____ moves the previous question. Do ten members second the motion?" If the motion be properly seconded, the question shall be stated as follows: "As many as are in favor of ordering the previous question will say aye; as many as are opposed will say no."

There shall be a motion for the previous question which, being ordered by a majority of all members present, shall have the effect to cut off all debate and bring the House to a direct vote upon the immediate question or questions upon which it has been asked or ordered.

The previous question may be asked and ordered upon a single motion, a series of motions allowable under the Rules or an amendment or amendments; or it may be made to embrace all authorized motions or amendments and include the bill to its passage or rejection.

(b) A call of the House shall not be in order after the previous question is ordered unless it shall appear that a quorum is not present.

(c) When the previous question is decided in the negative, it shall leave the main question under debate for the residue of the sitting unless sooner disposed of by taking a vote on the question or in some other manner.

31. *Incidental Questions of Order.*

All incidental questions of order arising after a motion is made for the previous question, during the pendency of such motion or after the House shall have determined that the main question now be put, shall be decided, whether on appeal or otherwise, without debate.

32. *Petitions, Etc., How Presented.*

Petitions, memorials and other papers presented to the House shall be presented by the Speaker or a member in his place, and brief statement of the contents thereof shall be made verbally and

endorsed thereon, together with the name of the member introducing the same.

33. *Every Member to Vote Unless Excused.*

Every member who shall be present before the vote is declared from the Chair shall vote for or against the matter before the House unless the House shall excuse him, or unless he is immediately intereted in the question, in which case he shall not vote.

34. *Procedure in Excusing Member from Voting.*

When a member declines to vote on a call of his name, he shall be required to assign his reason therefor; and, having assigned them the presiding officer shall submit the question to the House: "Shall the member, for the reasons assigned by him, be excused from voting?" Which shall be decided without debate. And these proceedings shall be had after the roll call, and before the result is announced, and any further proceedings in reference thereto shall be after such announcement.

35. *Order During Session.*

When the Speaker is putting the question no member shall walk out of or across the House; nor when a member is speaking shall any other member entertain any private discourse or pass between the speaking member and the Chair.

36. *Order of Putting Questions.*

All questions whether in Committee or in the House, shall be put in the order in which they are moved, except in the case of privileged questions; and in filling up blanks, the largest sum and the longest time shall be put first.

37. *Division of a Question.*

If the question in debate contains several points, any member may have the same divided. A motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost shall preclude neither amendment nor a motion to strike out and insert.

38. *Questions of Order.*

If any member of the House, in speaking or otherwise, transgresses the Rules, the Speaker shall (or any member may) call him

to order; in which case he shall immediately sit down unless permitted on motion of another member to explain, and the House, if appealed to, shall decide in either case without debate. If the decision be in favor of the member called to order he shall be at liberty to proceed, but not otherwise; and if the case require it, he shall be liable to censure or such punishment as the House may deem proper.

39. *Called to Order for Offensive Words in Debate.*

If any member be called to order for offensive words spoken in debate, the person calling him to order shall report the words excepted to and they shall be taken down in writing at the Clerk's desk and no member shall be held to answer, or be subject to the censure of the House, for language used in debate if any other member has spoken or other business has intervened after the words spoken and before exception to them shall have been taken.

40. *The Members May Demand Yeas and Nays.*

The yeas and nays shall not be ordered unless demanded by ten members, except upon the final passage of bills, joint resolutions and motions directing the payment of money. In these cases the yeas and nays shall be ordered without demand.

41. *Notice of Intention to Debate.*

Upon any member giving notice of his intention to debate any resolution, the same shall lie over one day without debate or other action.

42. *Call of the House.*

Ten members may make a call of the House and require absent members to be sent for; but a call of the House can not be made after the voting has commenced, and such call being ordered and the absentees noted, the doors shall be closed and no member permitted to leave the room until the call be suspended. And, pending the call, no motion shall be in order except it pertains to matters incidental to the call or a motion to suspend further proceedings under the same. After the call of the House has been ordered and proceedings thereunder are suspended, the Sergeant-at-Arms shall not permit any member to leave the hall or the House unless excused by the Speaker.

The call may be suspended at any time by a vote of the majority of the members present.

43. *Suspension of Rules to Hasten a Bill.*

Every bill shall be read on three different days unless in case of urgency two-thirds of the House deem it expedient to dispense with this rule; and no bill shall be passed until it shall have been read twice at length.

44. *Proceedings on the Passage of Bills.*

No resolution involving the expenditure of money, or joint resolution, shall be declared passed until voted for by a majority of all members elected to the House, to be determined by a roll call. No motion or proposition on a subject different from that under consideration shall be admitted under color of its being an amendment.

No bill or resolution shall at any time be amended by annexing thereto or incorporating therein any other bill or resolution pending before the House.

45. *Amendments to Appropriation Bills.*

No amendment increasing the amount or amounts carried by any appropriation bill shall be declared passed until voted for by a majority of all members elected to the House.

46. *Motion for Reconsideration.*

When a question has once been made and carried in the affirmative or negative, it shall be in order for any member who voted with the prevailing party to move for the reconsideration thereof; but no action for the reconsidering of any vote shall be in order after a bill, resolution, message, report, amendment or motion upon which the vote was taken shall have gone out of the possession of the House, announcing their decision. Nor shall any motion for reconsideration be in order unless made on the same day upon which the vote was taken, or within the next two days of actual session of the House thereafter. Such motion shall take precedence over all other questions except the motion to adjourn; provided that when notice of the intention to move such reconsideration shall be given by such member, the clerk of the House shall retain the said bill, resolution, message, report, amendment or motion until after the expiration of the time during which such motion can be made, as hereinbefore provided, unless the same is previously disposed of. A motion for reconsideration having been put and lost shall not be renewed.

47. *Authorized Manual of Parliamentary Practice.*

The rules of parliamentary practice embraced in Jefferson's Manual shall govern the House in all cases where they are applicable and in which they are not inconsistent with the standing rules of the House and the joint rules and orders of the Senate and House of Representatives.

49. *Committee on Legislative Expenses.*

(a) The purchase of supplies and fixtures of whatever nature, and contracts for rentals of telephones, typewriters and such similar fixtures as may be necessary, shall in all cases be made by the Committee on Legislative Expense. Every such order shall be made upon a blank furnished for that purpose, in duplicate, signed by the Chairman of the said Committee and countersigned by the Chief Clerk of the House. All such purchases shall be accompanied by invoices in duplicate, the original to be signed by the Chairman of the said committee to indicate that it has been favorably acted upon. The said invoice shall then be made a part of the Chief Clerk's voucher and filed with the State Auditor. The said committee shall make a report of expenditures to the House every thirty days, which report shall be entered in the Journal.

(b) All such supplies shall be in charge of Chairman of Committee who shall disburse the same only upon requisitions properly made out and indicating to whom the said supplies are delivered, and shall be countersigned by the chief clerk.

(c) The Chief Clerk shall keep a record showing the disposition of all supplies purchased and not in stock, in all instances.

50. *Committee on Engrossment.*

The Committee on Engrossment shall examine all bills after they are engrossed and report the same to the House "correctly engrossed" before the third reading. The said Committee may report at any time, and all bills shall be engrossed in typewriting.

The chairman of the said committee shall keep, or cause to be kept a record showing the hour and date of the receipt and return of all bills referred to the said committee; and all bills shall be returned to the same order as that in which they are received.

51. *Committee on Enrollment.*

The Committee on Enrollment shall examine all House bills, memorials and joint resolutions, which have passed the two houses, and when reported "Correctly enrolled" they shall be presented to the presiding officers of the two houses for their signatures; and when so signed to the Governor for his approval. The said committee may report at any time but it shall not report any bill as correctly enrolled which has words interlined therein, or when any words have been erased therefrom; and all bills shall be enrolled in typewriting.

The chairman of the said committee shall keep, or cause to be kept a record showing the hour and date of the receipt by it of each bill and of its return to the House; and all bills shall be returned in the same order as that in which they are received.

52. *Committee on Public Accounts and Expenditures.*

It shall be the duty of the Committee on Public Accounts and Expenditures to examine into the state of accounts and the expenditures of the State Auditor, the State Treasurer and all other State officers entrusted with the custody or disbursement of any portion of the public moneys, including State institutions; to require and report particularly on or before the twentieth day of February whether the expenditures of each and all of the said officers are justified by law; whether all claims from time to time

satisfied and discharged by such officers are supported by sufficient vouchers, establishing their justice both as to character and amounts.

Whether all such claims have been discharged out of funds appropriated therefor, and whether all moneys have been disbursed in conformity with appropriation laws; whether all moneys reported to be on hand are so on hand, and to the credit of the various funds as reported; and the notes, bonds, and securities in which any portion of the public moneys are reported to be invested are on hand as reported, and whether the same are proper and secure investments and securely kept.

And it shall be, moreover, the duty of the said committee to report from time to time whether any and what retrenchment can be made in the expenditure of any department or officer of the State without detriment to the public service, and to report from time to time such recommendations and bills as may be necessary to add to the economy and accountability of any officer of the State; and the said committee shall make such recommendations as to the investment of public moneys and the exchange or sale of any of the bonds or securities held by the State as in their judgment the public interest requires.

53. *Committee on Claims.*

The Committee on Claims shall keep a permanent index record of all claims in which shall be entered the amount claimed and character of the same, together with all proceedings, had by the said committee and the final action taken by the committee, upon all claims considered. Such record, together with all files pertaining thereto, shall be filed with the Secretary of State at the close of the session as a permanent record and used by all subsequent claim committees and shall be subject to public inspection.

54. *Committee of Conference.*

A Committee of Conference may report at any time.

No committee except a Committee of Conference and the Committee on Rules shall sit during the sitting of the House without leave.

55. *Special Committees.*

Special Committees to whom reference shall be made, shall in all cases report a state of facts and their opinion thereupon, to the House.

56. Meeting of Committees.

The chairman of the Rules Committee shall call a meeting of the chairmen of the various committees of the House and after conference, the Committee on Rules shall prepare a schedule of committee meetings, fixing as far as practicable the date and hour which will be the regular meeting time of each committee to be first approved by a majority vote of the House. Should it be necessary to hold a special meeting or for any reason change temporarily the regular meeting of a committee, the notice by the chairman of said committee, of such change shall be read from the desk at least one day in advance thereof, and also posted upon the bulletin board at the same time, or on a majority vote of the House fixing a time therefor at any time.

57. Time Limit for Committee Consideration of Bills.

Fifteen days after a bill has been referred to a Committee (other than a bill for appropriations, reapportionment or claims) and no report has been made upon the bill by the Committee, any member may request that the bill be returned to the House. The Committee shall then have three days in which to report back the bill requested. If the Committee fails to make a report within three days, any member may at any time after the expiration of such three days, during the order of "Motions and Resolutions," demand the return forthwith to the House of the bill in question, which shall constitute the demand of the House and the said bill shall at once be considered to be in the possession of the House, subject, however, to such disposition as the House shall determine. Provided, that the House can recall any bill from any committee at any time, give the same second reading and advance the same to General Orders by a majority vote of the members.

58. Substitution of Bills.

No standing or special committee, nor any member or members thereof, shall report any substitute for any bill or bills referred to such committee, which substitute relates to a different subject or is intended to accomplish a different purpose from that of the original bill for which it is reported, or which, if adopted and passed, would require a title essentially different from the title of the original bill; and every substitute bill so reported shall be rejected whenever the House is advised that the same is in violation of this Rule. This Rule shall not be suspended without the unanimous consent of the House.

EMPLOYEES.

59. All propositions for the appointment of employees of the House, other than those provided by law, shall be referred to the Committee on Rules. No appointment shall be made unless favorably reported upon by such committee, or its report be overruled by a three-fourths vote of the House.

The said committee shall report to the House the amount of compensation that shall be paid to each of the said employees.

adopted. No clerk shall be appointed for any of the committees named in Rule 59 unless the necessity for the same is recommended by the Committee on Rules; and no clerk of the said Committee and no employee of this House shall receive any pay for any time prior to the date of appointment, and no employee or clerk mentioned in Rule 59 shall receive any pay, compensation, gratuity or reward over and above the salary named therein, except upon an approval of a four-fifths vote of the whole House.

Violations of this rule shall be ground for instant and summary discharge of the offending employee.

MISCELLANEOUS RULES.

60. *Vote Required to Suspend Rules.*

No rule of the House shall be suspended, altered or amended without the concurrence of two-thirds (2-3) of the members of the whole House, except Rule 59, which shall require the concurrence of three-fourths of the members of the whole House. But the Committee on Rules may report at any time and any Rule so reported may be adopted by the majority of the House.

61. *Weekly Synopsis of All Entries in Journal.*

After the last session of each week the Clerk shall prepare a synopsis of all entries affecting bills in the Journal for the week. Such synopsis shall specify clearly and briefly the proceedings had and action taken, giving dates:

Jan. 14. On General Orders.

The synopsis so prepared shall be of the same size and form

as the Journal, and shall be distributed on the desks of the members not later than noon of the following Monday.

62. *Printing of Bills.*

All bills of a general nature, including all bills appropriating money or lands shall be printed; provided, that no bill shall be printed until after the same shall have been favorably reported by the committee to which the same shall have been referred, unless ordered printed by a majority vote of the House.

Upon bills received from the Senate, it shall be the duty of the committee of the House to which the same are referred to make a report to the House as to the advisability or inadvisability of having the same printed.

63. *Newspaper Reporters.*

Former members of Congress, or Minnesota Legislature or any other person when

personally introduced by members of the House to the Speaker, the Speaker may issue a permit good for the day to such person after having satisfied himself that such person does not seek the floor of the House for the purpose of directing or using his influence upon any measure pending or otherwise before the House. It is expressly directed that the Sergeant-at-Arms shall keep the alcoves cleared (the alcoves shall be kept for members only), and at no time when the House is in session, can visitors on the floor of the House who are guests of members thereof, occupy the alcoves, but visiting members shall be provided with a seat near the member who has recommended him, and at no time shall a conversation be carried on to disturb the business of the House.

It shall not be in order for the Speaker to entertain a request for the suspension of this rule, nor to present from the chair the request of any member for unanimous consent, unless however, an extraordinary condition exists, in which event, he may consent to entertain a motion for its suspension.

65. *Construction, Rule As To.*

In the construction of terms "majority vote," "vote of the House," "vote of the whole House," and "vote of the entire House," as used in these rules, the first two phrases shall be deemed a majority vote of the members present at the particular time, and the last two phrases to mean a majority vote of all the members elected to the House at the particular session of the Legislature.

66. *Bulletin Board.*

The Chief Clerk shall prepare a bulletin board, upon which shall be posted a list of committee meetings, and any other announcements or notice the House may require.

MOTIONS AND RESOLUTIONS—CONTINUED.

Mr. Boyd offered the following resolution:

Be It Resolved, That whereas, according to United States government reports, the potato crop harvested in the fall of 1914 is 25,000,000 bushels in excess of the needs of this country, and that this surplus is in danger of going to waste; and

Whereas, the present price and exportation of wheat has reached a high mark and indicates a possible shortage in that cereal, and further advance in price thereof in the near future, and

Whereas, the war-stricken countries of Europe, and the desti-

tute condition of Belgium in particular, has already aroused our country's sympathy, in response to which a commission for the collection of donations for Belgium relief is already at work soliciting and sending supplies to that afflicted country,

Now, therefore, we deem it proper to call attention to these conditions of our food supplies, and suggest the substitution of potatoes for wheat and flour in supplying the wants of our neighbors across the sea, to the greatest extent possible, to the end that the domestic supply of wheat be not imperiled, and that no waste occur in that other great food supply, potatoes, and, when growers and dealers in potatoes indicate their willingness to make liberal contributions thereof, for the relief of the Belgians or other needy peoples, a nation-wide movement be inaugurated to give proper and organized effect to such offerings; and

Be It Further Resolved, That the Governor of the State of Minnesota be directed to organize a commission to carry out the work of receiving, assembling and forwarding contributions of potatoes throughout the state, and that the railroads and Railroad and Warehouse Commission of the state be urged to co-operate to the greatest extent possible in carrying out this relief work; that a copy of this resolution be sent to the Governors of the following named states with a request that similar movements be started in their respective states, viz: Maine, New York, Michigan, Wisconsin, North Dakota, who, with Minnesota, it is estimated possess the bulk of potatoes now on hand, probably amounting at this time to 100,000,000 bushels, of which it is quite likely 10 per cent will go to waste if such a movement as this is not inaugurated.

Mr. Lydiard gave notice of debate.

MOTIONS AND RESOLUTIONS.

Resolution for the appointment and authorizing the appointment of a special committee of fifteen House members to consider

and report upon House File No. 25, already introduced, recommended to this Legislature by the Economy & Efficiency Commission of Minnesota, appointed by the Governor of Minnesota, Oct. 13, 1913.

Introduced by Mr. Spooner.

Whereas, on the 13th day of October, 1913, the Governor of Minnesota selected and appointed "a commission of thirty citizens of Minnesota to prepare a plan for the reorganization of the State Government—in the interest of economy and efficiency," widely known as the "Economy & Efficiency Commission" of Minnesota; and

Whereas, said Commission found and reported that the various executive duties have been scattered among many and various boards and officers so that authority is widely dispersed and so that various incompatible powers and duties have been laid upon officers provided for other purposes—until they have been diverted from their real and primary tasks and so that there has been unnecessarily rapid increase in State expenditures which, in a considerable measure at least, is due to these conditions; and

Whereas, the present Governor of this State, in his inaugural message, voiced his determined belief that the report of the said "Economy & Efficiency Commission" and the bill proposed thereby for the favorable consideration of this Legislature, House File No. 25, as introduced, "is worthy of the study of a special committee of this House" duly appointed for the purpose and having no other duties to perform; and

Whereas the plan of the said commission has been duly introduced into this House as House File No. 25, already referred to;

a secretary and competent stenographer to take and duly report all testimony offered or received, and to exercise such other or further powers and incur such expenses in the premises as to the said committee may be deemed necessary to the full and fair consideration of said House File and a full report thereon including a full investigation into the administration of all of the departments and bureaus affected by the said House File.

St. Paul, January 14, 1915.

To the Senate and House of Representatives.

Gentlemen: I beg to transmit a letter received by me from the acting State Drainage Engineer from which it appears there is urgent need of an appropriation to be available at once for the purpose of preparing and publishing the report of the State Drainage Commission and for office expense.

I recommend that an appropriation be made to supply these urgent needs.

Very respectfully yours,

WINFIELD S. HAMMOND,
Governor.

The report accompanying the message of His Excellency was referred to the Committee on Drainage.

PERSONAL PRIVILEGE.

Mr. Sawyer arose to a question of personal privilege as to the newspaper reports of his pledges and vote on the Speakership and upon motion the following remarks were ordered printed in the Journal and made a part of the records.

In the St. Paul Daily News of Jan. 5th, 1914, there appeared an article which I quote in part as follows:

"Four Broken Pledges Defeated Gordon."

"Floppers" had given written promises of support for the Speaker.

The failure of four members of the House to stand by their written pledges cost S. Y. Gordon the Speakership at the House election Tuesday. The flopping members are J. W. Woodfill, Two Harbors, J. H. Erickson, Clinton, A. L. Thompson, Mah-nomen, C. L. Sawyer, Minneapolis. * * *

Then the actual language of my pledge to the Minnesota Anti-Saloon League is quoted as follows: "This is to say that recognizing the fact that the matter of election of Speaker of the next House ought to be settled and settled at once for the best interests of the State, also recognizing the fact that further hesitancy on my part may delay such settlement, believing also that Mr. Gordon

has at the present time 64 pledged votes, I hereby agree that whenever in the *near future* Mr. Gordon has secured one more pledged vote or in other words, whenever *my vote* will make a *majority* for Mr. Gordon, this may be considered a final and definite agreement that I will support him for the Speakership." The clipping referred to continues as follows:

"Then He Flopped."

"At the voting Tuesday, Sawyer supported Flowers on both ballots."

I am also in possession of a clipping from the Fairmont Daily Sentinel of January 7th, 1915, which reads as follows:

"For Shame, For Shame."

"The following named members of the Legislature after having *solemnly promised* and *signed an agreement* to vote for S. Y. Gordon for Speaker, cast their ballots for the candidate of the brewery combine. J. W. Woodfill, Two Harbors, J. H. Erickson, Clinton, A. L. Thompson, Mahnomen, C. L. Sawyer, Minneapolis. The record of this vote will haunt these men in their dreams and follow them to their graves if they should live to be as old as Methuselah, it would be still written across their foreheads. For shame, for shame."

I quote the following from the Interlake Tribune of Jan. 7, 1915, of which publication the Hon. S. Y. Gordon is the editor:

"Gordon's defeat was made possible by the treacherous desertion of two members pledged to him, viz.: Erickson of Clinton, Big Stone County, and Sawyer, a *political trimmer* and *side-stepper* hailing from a *Minneapolis* district and elected on the *county option platform*. Defeat under conditions prevailing in this fight was a big victory."

To the question of personal privilege, I have to say that these statements are inaccurate, false in many particulars and libelous for the following reasons:

1. I never made a definite pledge to Mr. Gordon for Speaker. Influenced by the assertion of Mr. Martinson of the Anti-Saloon League and others, that by withholding my vote from them, I might be doing great injury to the temperance cause throughout the State, I did say that in view of this fact, rather than see any such serious injury happen to a good cause, that I would give Mr. Gordon my vote in case that such vote would make him

Speaker and ward off the calamity which the temperance people saw impending. This pledge I kept to the letter, giving Mr. Gordon and his friends every opportunity, even to the very last moment before the beginning of the roll call on the Speakership. At that moment, I informed Mr. Norton of Hennepin, one of the strong supporters of Gordon, that if after the vote had been taken it appeared that Mr. Gordon had 65 or that my vote alone would elect him, that I would change my vote and make Mr. Gordon Speaker. The result showed 65 for Flowers and 63 for Gordon. Even after this vote was taken, still being determined to keep my conditional pledge to the letter, I promised that if on the second ballot 65 other votes could be obtained, that the Gordon forces would still have my vote to elect their man for Speaker. The result of the ballot was Flowers 65—Gordon 63.

The publications above referred to, including the one published by the late candidate for Speaker, have either had a distorted *understanding* of the facts, or have been *willing* to *malign* and *injure* a member of the House wantonly. I hesitate to believe the latter, and so infer the truth of the former feeling, however, that it is due to myself and to the members of the House that they know the truth and believing that the House and the public desire to do justice, I think it fitting to make this statement, and to ask that as a part of my remarks it be made a part of the record and published in the Journal.

Mr. Erickson arose to a like question of personal privilege and upon motion the following remarks were ordered printed in the Journal and made a part of the record.

As comments exceedingly misleading and very derogatory to me, have been published by the St. Paul Daily News, The Fairmount Daily Sentinel, The Ortonville Journal, The Graceville Enterprise and the Interlake Tribune, regarding my vote for Speaker of the House of Representatives, I shall ask the indulgence of the members and also request that this statement be made a part of the records of this session.

My pledge to Mr. Gordon was relative to the conference only and was as follows:

"My first choice for Speaker is Hon. Sam Y. Gordon of Browns Valley, and the bearer of this proxy is hereby authorized to so cast my vote in the conference of legislative members to be held at the Merchants Hotel on Tuesday, Nov. 17, 1914.

J. H. Erickson,
48th District.

This pledge was given only upon the assurance of Mr. Gordon and his main sponsor, James Arneson, that it would not be considered as a pledge or bind me to vote for Mr. Gordon if the contest was carried to the floor of the House and upon the assurance that at least at majority of the members of the House would be present or represented at the conference.

On December 19, 1914, sixteen days before the opening of the present session, I wrote Mr. Gordon in part as follows:

"Since there seems no likelihood of either of the present active candidates getting a majority of the members pledged to them before the opening of the Legislative session, I shall not, for the present at least, pledge my vote to anyone as I deem it unwise under present conditions to be tied down to any candidate."

On the same day I also wrote Mr. Flowers as follows:

"Since neither of the active candidates for Speaker have made the progress they anticipated and the present outlook being that neither can procure a pledge of a majority of the members before the opening of the session, I shall, for the present at least, not pledge my vote to anyone."

I was, therefore, at the time, not pledged to either of the candidates, nor did I at any time thereafter pledge myself and would have been free to vote for any candidate who might have been placed in nomination for Speaker of the House.

Therefore, the statements made by the papers referred to and which have been quoted in part by Hon. Chas. L. Sawyer, are misleading, derogatory, and libelously untrue, both to the members referred to and to the Honorable Speaker of the House.

It is no more than just that the foregoing explanation be made a part of the records.

Mr. Lydiard moved that all bills introduced and laid on the table, be taken from the table and referred to the proper committees by the Speaker.

Upon motion of Mr. Adams, 600 extra copies of today's Journal be ordered printed.

Mr. Bjornson moved that the House recess for ten minutes for the purpose of an address by Hon. J. F. Jacobson of Lac qui Parle county.

Which motion prevailed.

The Speaker appointed Mr. Bjornson a committee of one to escort Mr. Jacobson to the chair, when Mr. Jacobson was introduced by the Speaker and delivered his address.

RECONVENED.

The House at 4:30 P. M. reconvened.

Mr. Steen moved that H. F. No. 14 be returned to its author.
Which motion prevailed.

Mr. Bjornson moved that when the House do adjourn it be to
Monday evening, at 8 o'clock.

Which motion prevailed.

Mr. Mueller, from the Committee on Mileage made the following

JOINT RULES OF SENATE AND HOUSE.

JOINT CONVENTIONS—HOW GOVERNED.

Rule 1. The Speaker of the House shall preside at all conventions of the two branches of the Legislature, and shall call the members to order. The Chief Clerk of the House shall be the Secretary, and the Sergeant-at-Arms of the House shall be the Sergeant-at-Arms of the convention.

DUTIES OF THE PRESIDENT.

Rule 2. The President of the convention shall preserve order and decorum; may speak on all points of order in preference to other members; shall decide questions of order, subject to an appeal to the convention by any member. He shall rise to put a question, but may state it sitting.

QUESTION—HOW STATED.

Rule 3. Questions shall be distinctly put in this form, to-wit: "As many as are of the opinion that (as the question may be), say 'Aye,'" and after an affirmative vote is expressed, "As many as are of the contrary opinion, say 'No.'" If the President doubts, or a division be called, the convention shall decide—those in the affirmative of the question shall first rise, and afterwards those in the negative.

PRESIDENT'S RIGHT TO VOTE.

Rule 4. The President shall have the right of voting in all cases except on an appeal from his decision, and on all questions he shall vote last.

ORDER OF DEBATE.

Rule 5. When any member is about to speak or deliver any matter to the convention, he shall rise and respectfully address himself to "Mr. President," and confine himself to the question under debate and avoid personalities.

Rule 6. Whenever any member is called to order he shall be seated until the point of order is determined; and if called to order for words spoken in debate the exceptional words shall be reduced to writing immediately.

Rule 7. When two or more members rise at the same time, the President shall name the member who is in order.

Rule 8. No member shall speak more than twice on the same question, without permission of the convention.

CALL OF THE CONVENTION.

Rule 9. Any five members may move a call of the convention, and require absent members to be sent for, but a call cannot be made after voting is commenced; and a call being ordered and the absentees noted, the doors shall be closed and no member be permitted to leave the hall until the report of the Sergeant-at-Arms be received and acted upon, or further proceedings under the call are suspended by a vote of a majority of all the members of the convention.

EITHER HOUSE MAY AMEND, ETC.

Rule 10. It shall be in the power of either House to amend any amendment made by the other to any bill or resolution.

BILLS—HOW ENROLLED AND SIGNED.

Rule 11. After a bill, memorial or resolution shall have passed both Houses, it shall be duly enrolled in typewriting by the enrolling clerk of the House in which it originated. The Senate and House Committees on Enrolled Bills, acting jointly, shall then carefully compare the enrollment with the engrossed copies as passed by the two Houses, and after correcting all errors that may be discovered in the enrollment, report the same as correctly enrolled to their respective Houses. They shall then obtain the signatures and certificates of the proper officers to the enrolled copies, present the same to the Governor for his approval, and report the date of such presentation to their respective Houses.

ELECTIONS BY JOINT CONVENTIONS.

Rule 12. Whenever there shall be an election of any officer in joint convention, the result shall be certified by the President of the Senate and the Speaker of the House, and by them announced to their respective Houses, and shall be entered on the Journal of each and communicated to the Governor by the Secretary of the convention.

COMMITTEES OF CONFERENCE.

Rule 13. In all cases of disagreement between the Senate and House on amendments, adopted by either House to a bill, memorial or resolution passed by the other House, a committee of conference consisting of not less than three members nor more than five members from each House, may be requested by either House, and the other House shall appoint a similar committee. The manner of procedure shall be as follows: the Senate, for instance, passes a bill and it is duly transmitted to the House, which body adopts an amendment to the bill and passes the bill as amended, returning the same, with a record of the action of the House, to the Senate; the Senate refuses to concur in the House amendment, asks for a committee of conference, appoints such a committee on the part of the Senate, and with a record of the action of the Senate, returns the bill to the House; if the House adhere to its amendment a like committee is appointed on the part of the House. The joint committee shall, at a convenient hour agreed upon, meet and state to each other verbally or in writing the reason of their respective houses for or against the disagreement, and confer thereon, and shall report to both houses such agreement as they may arrive at, if any—and if not, the fact of a disagreement. The house having possession of the bill at the time when the conference is agreed to shall first act upon such report, if an agreement is reported, and duly transmit the same, with a record of its action thereon, to the other house, together with the bill.

EITHER HOUSE MAY RECEDE, ETC.

Rule 14. It shall be in order for either house to recede from any subject or matter of difference existing between the two houses at any time previous to a conference, whether the papers upon which the difference has arisen are before it or not, and a majority shall govern, except in cases otherwise provided in the constitution; and the question having been put and lost, shall not be again put upon the same day, and a reconsideration thereof

shall in all respects be regulated by the rules of the respective houses.

APPROPRIATIONS OF MONEY—HOW MADE.

Rule 15. The same bill shall not appropriate public money or property to more than one local or private purpose.

No certificate authorizing the payment of any money appropriated by the legislature shall be issued by the Secretary of the Senate or by the Clerk of the House by virtue of any motion or resolution, unless such motion or resolution shall have been carried by a majority of all the members of the house in which it was introduced.

No clause appropriating money for a local or private purpose shall be contained in a bill appropriating money for the state government or public institutions, and all resolutions authorizing the issuing of certificates by the Secretary of the Senate or the Clerk of the House for the payment of money shall be upon the call of the “yeas” and “nays.”

3. A bill appropriating moneys for the support and maintenance of all state educational institutions for the two succeeding fiscal years.

No other appropriations shall be contained in any of said bills, but all other appropriations shall be contained in separate bills.

RULES OF JOINT CONVENTION.

Rule 16. The rules of the House shall be the rules of the joint convention of both houses in all cases where the foregoing rules are not applicable.

TITLE OF BILLS SHALL EXPRESS THEIR SUBJECT.

Rule 17. The subject of each bill shall be clearly expressed in the title and when a bill is amendatory of an existing act, it shall not be sufficient to refer to the chapter, section or page, but the subject thereof shall be clearly stated.

Which motion prevailed.

Mr. Guilford offered the following resolution:

Whereas it appears:

First. That there has been a very rapid increase in state expenditures in Minnesota during the past ten years, and that the

state expenditures have increased during the period of time from 1903 to 1913 approximately one hundred and twenty-five per cent (125%), while the population of the state during the same period has increased only about seventeen per cent (17%).

Second. That the governmental cost per capita in Minnesota is very high as compared with that of other states of the Union.

Third. That the Governor of this state recommended in his annual message that in making up the appropriations at the present biennial session that those appropriations do not exceed in amount the appropriations made at the session of 1911, the Governor's recommendation being in the following language:

"I hope that in reviewing the work of this session it may be said there is a substantial reduction in the amounts appropriated, and if the municipalities of the state will do proportionately as well taxes would be substantially lightened.

The appropriations of the legislature of the year 1913 were \$1,275,130.90 more than the appropriations of the year 1911. I recommend that in making up the appropriations you do not permit the aggregate amount to exceed the appropriations of 1911. This I am quite sure can be accomplished without injury to the state or any of its institutions or activities."

Fourth. That the above recommendation is in accordance with the wishes and feeling of a great majority of the people of the state, as expressed very forcibly at the polls at the last election.

Fifth. That a great majority of the House of Representatives have come here pledged to economy in the matter of appropriations.

Now, therefore, be it resolved, That it is the sense of the House of Representatives of the State of Minnesota:

First. That the total appropriations for the session of 1915 do not exceed the appropriations of 1911, amounting in all, as shown by the last biennial report of the State Auditor of Minnesota, in the sum of \$17,662,308.33, and

Second. Be it further resolved, That the Appropriations Committee of this House be and they are hereby instructed to act in accordance with this resolution in making up the appropriation bills at the present session.

Whereas, It is the belief of the author of this resolution, which opinion he also believes is shared by a large number of members of this House who have familiarized themselves with the subject, that the amount spent by the state for printing is far in excess of its actual needs and further believing that the State Printer is very desirous of making a move in the interests of economy along this line, but that he has often been handicapped by the demands of the several departments for the printing of large and voluminous reports, much of the subject matter of which is never used and is of little, if any, benefit to the citizens of the state at large, it being almost in its entirety duplicated in the State Auditor's report, and further believing that a thorough investigation of the subject of state printing would result in a great saving to the state, both by lessening the cost for the necessary printing and by largely cutting down its volume, therefore,

Be It Resolved, That the Committee on Printing at once begin a systematic and thorough investigation of the whole subject and make a report, giving this House the result of its investigations, together with their recommendations pertaining thereto, on or before the 22nd day of February, 1915.

Be It Further Resolved, That in making this investigation, said Printing Committee shall seek the advice and assistance of the State Printer, Printing Commission, heads of several departments and other printing experts with whom they may deem it to their advantage to consult, in order that they may act intelligently with reference to the whole matter, and,

Further Be It Resolved, That in carrying out the provisions of this resolution, said Printing Committee shall have the power to summon witnesses, put them on oath if desired and compel such witnesses to submit any and all documentary evidence in their possession for the use and benefit of said Committee.

Which was adopted.

PETITIONS AND COMMUNICATIONS.

Mr. Anderson offered the following resolution as to a resolution by the Holden Farmers Club, as follows:

“Holden Town Hall, Goodhue County, Minn.,
January 26, 1915.

To the Honorable House of Representatives of the State of Minnesota in Legislature assembled:

We, members of The Holden Farmers Club and voters of the Township of Holden, Goodhue County, in said State, in meeting assembled unanimously adopted the following resolutions and ask that they be spread on the pages of the House Journal.

Be it resolved, That we hereby respectfully but most urgently pray that your Honorable Body will pass the following bills:

H. F. No. 66, authorizing loaning of school funds on improved farm lands.

H. F. No. 76, providing jail sentence for auto speeding on second offense.

H. F. No. 77, bonding of employment bureaus.

H. F. No. 83, establishing uniform taxes on personal property.

By McGrath: To compensate workmen for time consumed by waiting for pay.

By Minnette: Protesting against payment of court proceedings over contested seats.

By Minnette: Placing telephone and telegraph companies under the control of railroad and warehouse commission, compelling competing companies to make cross connections.

By A. C. Welch: That each newspaper could have one representative present at every committee meeting that the public might be more fully informed of all proceedings.

And be it further resolved, That we most heartily approve and appreciate of His Excellency, Governor Hammond's message on economy. We also applaud all those who recently on the floor of the House gallantly supported, by vote and otherwise, a certain resolution to keep appropriations within the 1911 figures.

We desire the Elwell road law repealed, and pray that the Dunn road law be amended as follows:

“1st. The abolishment of the State Highway Commission.

2nd. The State Engineer and his deputies.

3rd. The Chief Clerk and his assistants.

4th. Also all draftsmen and surveyors employed by the Highway Commission.”

This law has cost the taxpayers over \$3,000,000.00 the past two years with but very little benefit to our road system.

Yours for just and equitable laws,

P. H. Volstad,

Corresponding Sec., Kenyon, Minn.

REPORT OF STANDING COMMITTEES.

Mr. Swenson, from the Committee on Dairy Products and Live Stock, to which was referred the typewritten bi-annual report of the Dairy and Food Commissioner, makes the following report:

This Committee commends the Dairy and Food Commissioner upon his excellent report, the substantial and intelligent manner in which it was prepared, its completeness in every detail, and, the Committee especially calls attention to the economical administration of the department and the typewritten report submitted to the Governor and to this Legislature, thereby saving to the taxpayers of this state a sum estimated at from one thousand (\$1,000) to fifteen hundred dollars (\$1,500). The Committee feels that this practice of economy should be the rule of every department of the state, as the printed reports as submitted, aside from that of the State Auditor's report, does not appear to us to be of the value intended, and is a practice of gross extravagance that has grown up, and one in which reason and sound judgment has been set aside for useless and flagrant extravagance. The Committee recommends that this report be accepted and filed with the Governor for future reference.

MOTIONS AND RESOLUTIONS.

Resolution by Mr. Guilford:

Whereas, it appears:

First, That there has been a very rapid increase in State expenditures in Minnesota during the past ten years,

Second, That the governmental cost per capita in Minnesota is very high as compared with that of other states of the Union.

Third, That the Governor of this state recommended in his annual message that in making up the appropriations at the present biennial session that those appropriations do not exceed in amount the appropriations made at the session of 1911.

Fourth, That the recommendation is in accordance with the wishes and feeling of a great majority of the people of this state, as expressed very forcibly at the polls at the last election.

Fifth, That attached hereto is the signed statement of the State Auditor of Minnesota, setting forth in itemized form all of the appropriations made by the 1911 and 1913 sessions of the State Legislature, it appearing from such statement that the total appropriations for the session 1911 is the sum of \$18,512,308.33, and for the session 1913 is the sum of \$19,579,168.57.

Sixth, That a great majority of the members of the House of Representatives have come here pledged to economy in the matter of appropriations.

Now, therefore, be it resolved, That it is the sense of the House of Representatives of the State of Minnesota,

First, That the total appropriations for the session 1915 do not exceed the total appropriations for the session 1911, in the amount above set forth, and

Second, be it further resolved, That the Appropriations Committee of this House be and they are hereby requested to use their best means and efforts to act in accordance with this resolution in making up the appropriation bills at the present session.

Roscoe Center, Goodhue County, Minn.

January 27, 1915.

*To the Honorable House of Representatives, in Legislature
Assembled:*

We, the members of the Roscoe Farmers' Club and voters of Roscoe Township, Goodhue County, Minn., in meeting assembled, unanimously adopted the following resolution and ask that they be spread on the pages of the Journal.

P. O. FINSTUEN, Secretary.

H. HOVEN, President.

Whereas, Taxes have increased so much in two years that they now have become a burden, and,

Whereas, Our lawmakers seem to think it their duty to still add more commissions and more taxes every time the legislature meets,

Therefore, Be It Resolved, By the Farmers' Association of the Township of Roscoe, that we demand of our Senator and Representative that they shall do all in their power to prevent the establishment of any more salaried commissions in the state, but rather abolish some of the most useless commissions already established.

We Further Demand, That the State Highway Commission, with all its engineers, inspectors and agents, be abolished and that the County Surveyor act as engineer in the building of the important bridges, together with the township boards and supervisors in the construction of good roads.

We Further Demand, That all moneys paid in as road taxes shall remain in the county where it is paid, and be allotted to each respective township in proportion to its share of taxes for that purpose.

And, Be It Further Resolved, That we further demand that the Elwell Law be repealed and that the Dunn Good Roads Law be so amended as to correspond with the changes demanded as above.

And, Be It Further Resolved, That we are opposed to a consolidated school and to the taking away of our local school boards and to concentrate the power of same in a County Board of Education.

And, Be It Further Resolved, That we are opposed to woman suffrage, and also to that of County Assessor, and demand of our Senator and Representative to use all honorable means to oppose said measures.

By order of Farmers' Club of Roscoe Township.

P. O. FINSTUEN, Secretary

H. HOVEN, President.

In the matter of the purported contest, brought by Frank Dunning against T. H. Girling, which was referred to this committee on January 21, 1915, the committee, by unanimous vote, makes the following statement and recommendation:

First: The committee has considered this purported contest at four (4) different meetings, has heard counsel for both sides, has considered briefs submitted by both contestant and contestee, and has submitted to the Attorney General of the state the question of whether or not the papers filed constitute a regularly instituted election contest, and has received from that official an opinion to the effect that the papers so filed do not constitute a contest within the meaning of the law.

Second: The committee recommends to this House that, in view of the above facts and findings, it be declared the sense of the House that no contest of the seat of the said Thomas H. Girling has been brought, and that further proceedings, under and by virtue of the papers now on file in this matter, be indefinitely postponed.

MOTIONS AND RESOLUTIONS.

Mr. Gordon offered the following resolution:

Whereas, There have been many statements in the public press and by public men from the platform during the past few years, to the effect that the state government was overburdened with boards and commissions and numerous useless employes, and,

Whereas, The State Tax Commission, in a supplement to its fourth annual report, shows the cost of state government to have increased approximately six millions of dollars (\$6,000,000) annually over the cost of government six (6) years ago, and in the interest of economy the said commission recommends the co-ordinating of many state departments, and

Whereas, The great majority of the members of this House were elected pledged to a platform of economy in state government, and

Whereas, There are grave doubts about the passage at this session of the bill, known as the "Economy and Efficiency Bill," as recommended by the commission appointed by Ex-Governor Eberhart, and there is, furthermore, considerable doubt in the minds of many of the members as to the feasibility of the proposed so-called "Economy and Efficiency Bill," now pending before this House, and as the time of the session is rapidly passing, and

Whereas, A concurrent resolution has been introduced in the other body of this Legislature, to the effect that should the so-called "Economy and Efficiency Bill" become a law it shall not take effect until January 1, 1917, thus insuring at least two (2) more years of present conditions; therefore be it

Resolved, That a committee of two (2) from each Congressional District in the State be appointed, and hereby is appointed, to consist of the following-named members, to-wit:

Ralph J. Parker, John W. Papke, Lars Teigen, C. M. Bendixen, W. J. Kuntz, Carl G. Malmberg, Thomas J. Greene, Leavitt Corning, Paul W. Guilford, John M. Harrison, Levi M. Davis, Chas. H. Warner, Theodore Christianson, Sam Y. Gordon, William J. North, Chas. T. Murphy, Elmer E. Adams, P. H. Konzen, J. E. Madigan and Albert F. Pratt,

Whose duty it shall be to investigate as to alleged useless departments and unnecessary employes, and as to the feasibility of merging other departments in the interest of economy in state government and report to this House at its earliest convenience in the form of a bill, or a series of bills, that will, if enacted into law, in the estimation of this committee, bring about the reforms desired, or so much thereof as seems for the best interests of the state government at this time. Be it further

Resolved, That the committee herein named meet within three (3) days following the adoption of this resolution and organize, by the election of a chairman from its membership.

Mr. Gordon moved that the resolution be printed in the Journal and laid over one day.

Which motion prevailed.

MOTIONS AND RESOLUTIONS—CONTINUED.

MINNESOTA RAILROAD AND WAREHOUSE COMMISSION.

St. Paul, Minn., February 6th, 1915.

Hon. L. C. Spooner,
House of Representatives.

Dear Sir: Answering your request for information concerning the joint resolution which asks the sanction of the Legislature to the expenditure by the Commission of Monies now available, in the investigation of the proposed increases upon freight and passenger rates, I beg leave to state:

Railroads operating in the territory between the Illinois-Indiana state line and the Pacific Coast have filed tariffs with the Interstate Commerce Commission asking for substantial increases in freight rates upon grain and grain products, live stock, fresh meats, packing house products, fertilizer materials, hay and straw, broom corn, cotton piece goods, coal and coke, fruits and vegetables, rice and rice products; also tariffs proposing an increase of one-half cent in the passenger rates upon interstate commerce. The proposed freight rates will average an increase of \$7.00 per car on grain and its products, \$2.00 per car on live stock, \$2.50 per car on fresh meats and packing house products, and the rates upon these commodities will substantially increase the revenues of the carriers.

Commissioners representing the states of Minnesota, North and South Dakota, Wisconsin, Iowa, Nebraska, Kansas, Missouri, Oklahoma, Arizona and California appeared before the Interstate Commerce Commission at Washington on the 17th of November and secured a suspension of the proposed freight increases pending an investigation to be made. This suspension has been granted and a hearing upon the reasonableness of such rates will begin at Chicago on Feb. 15, 1915.

The proposed increase in passenger rates will become effective on March 1st, 1915, unless these tariffs are suspended. Requests for such suspension will be made by commissioners acting for the western states.

Following the suspension order, a committee of commissioners representing western states, met at Kansas City December 12th, to formulate plans for the investigation into the reasonableness of the

proposed increases. Later on a meeting was held at Des Moines. As a result of these two meetings it was decided to employ accountants to investigate the financial history, the operating accounts, and the costs of handling certain commodities, including the cost of doing passenger business. This investigation has been undertaken for the purpose of determining whether or not any or all of said railroads are entitled to increases in freight rates upon interstate commerce, and if it is found that they are entitled to an increase, then to determine upon what classes of traffic the burden should be placed.

The cost of the investigation, including the expenses to be incurred in the hearings, may reach \$75,000. Minnesota, Iowa, Kansas, Nebraska and South Dakota are in a position to pay their proportionate share of this expense, so the cost to Minnesota may reach the sum of \$15,000.

The accountants have been at work nearly a month and some bills have now been incurred and should be paid. The Commission has sufficient funds on hand to meet this extra expense, but because it is an investigation of interstate commerce, the Commission desires the sanction of the Legislature for the expenditure of this money and authority to make a reasonable and intelligent investigation.

Yours very truly,

CHARLES ELMQUIST,
Commissioner.

REPORTS OF STANDING COMMITTEES—CONTINUED.

Mr. Sawyer, from the Committee on Public Accounts and Expenditures, made the following report:

The Sub-committee, composed of Mr. Malmberg and Mr. Sorflaten, made a report on February 2nd. Their findings are briefly as follows:

1. The salary list was too large.
2. The yearly bill for extra services was too large.
3. Printing and advertising bills excessive.

The Committee recommended that the expense of the department be cut down in the office. It also offered the suggestion that the Land Department of the state had better handle this work until such time as we can establish an independent land department in the state, believing that the expenditure of even thirty-five thousand dollars (\$35,000) per year is not warranted and that it would not be wise on the part of the Legislature to raise the appropriation to one hundred thousand dollars (\$100,000) per annum, as requested by the Department. The Committee recommends that the Department be abolished and its belongings, correspondence, literature, etc., be turned over to the State Auditor until the Legislature in its wisdom sees fit to make other arrangements.

At one of our meetings an invitation was extended to the Committee on Immigration who sat with us and discussed with us the recommendations of our Committee. A majority of that Committee was present and desired to participate with us in this report and agreed that a bill to abolish the Immigration Department be introduced by the joint committees, viz: the Committee on Public Accounts and Expenditures and the Committee on Immigration. That bill is being introduced accompanying this report.

*To the Speaker and Members of the House of Representatives,
Thirty-ninth Legislative Session:*

The Committee on Public Accounts and Expenditures beg leave to make the following report:

In accordance with the authority vested in the Committee by the Rules Committee of this House, we desire to say that we have made an investigation of the so-called Immigration Department of the state and desire to make the following suggestions and impart the following information to the members of this House:

During the year 1913, the Department expended \$25,265.45. Of this amount \$10,512.79 was for salaries and incidental expense. In 1914 the Department expended \$34,300.00, of which \$13,251.12 was for salaries and expense. The functions of this Department are such that it is difficult to form a conclusion as to whether or not the proportion of salaries and expense to the other expenditures of the Department is well balanced. The opinion of the Committee, however, was that the salary and expense account was too high in proportion to the appropriation expended by the Department.

On the 27th day of January, Mr. Sherman, of the Immigration Department, appeared before the Committee. From his personal testimony and from examination of the literature and from evidence presented to the Committee, both orally and in the shape of correspondence, the following conclusions were reached unanimously by the Committee:

1. Much of the literature sent out by the Department is too highly colored, and while the statements found in said literature may be true as to particular parts of the state, they are, nevertheless, misleading, as the inference often occurs that conditions described are common to all parts of the state.

2. A very large amount of literature has been gotten out by the Department, much of which is duplicated in different forms and distributed not only to prospective buyers, but has been used generally by real estate men, banks and others interested in the real estate business throughout the state, such literature being stamped by the agent or other prospective seller, carries with it the inference that such agent is authorized by and is co-operating with the Immigration Department of the State of Minnesota. Moved by this assurance, purchasers are less likely to question as to the value of lands which they procure, feeling that the representations made by the state must be true, thus enabling real estate men and agents to dispose of their listed lands at too high prices, enabling them to realize a very large and very often exorbitant commission. From the results of literature distributed by the Department direct, many inquiries have come into the office of the Commissioner and it has been the custom to turn over these inquiries to various officials in the different counties and to Commercial Clubs, located at various points throughout the state. No method has been devised to take direct charge of these inquiries and protect the settler from the unscrupulous and being left to the tender mercies of various agents and corporations who follow up the advertising largely to their own profit. In the course of its investigation your Committee sent out various letters to parties who have been located in Minnesota and learned the history of their purchases from their inception. These letters are in the hands of the Committee, subject to examination of any members of the House who desire to look them over.

Whereas, The frequent floods of the Mississippi River, caused by waters from thirty-one (31) states, embracing more than forty-one (41) per cent of the total area of the United States, result in great loss of human lives in portions of the State of Illinois, Tennessee, Kentucky, Mississippi, Missouri, Arkansas and Louisiana, and large money losses, not only in such afflicted territory, but in other portion of the nations, and

Whereas, The work of such flood prevention has been going on for many years in the least economical way and over two-thirds of its cost has been borne by the damaged sections, who can no longer cope with this gigantic problem without effective aid from the National Government, and

Whereas, All political parties have declared in their campaign platforms that flood control of the Mississippi River is a national duty, therefore,

Be It Resolved, By the Senate of the State of Minnesota, and the House of Representatives concurring, that the Congress of the United States be, and is hereby requested to fulfill this national duty at its next session and to enact such legislation as shall provide a separate and comprehensive plan for the prevention of such floods without delay,

PETITIONS AND COMMUNICATIONS.

OFFICE OF THE ATTORNEY GENERAL.

St. Paul, February 18, 1915.

*Hon. H. H. Flowers,**Speaker of the House of Representatives.*

Dear Sir: In response to a request for my opinion as to whether or not House File No. 266 is a banking bill, and as such should be passed by a two-thirds vote of each house, I have to say that such is my opinion. The constitution says:

"The Legislature may, by a two-thirds vote, pass a general banking law."

The largest part of the section introduced by this statement is obsolete, but I am of the opinion that the clause quoted remains in force and that House File No. 266 is a substantial part of the general banking law of the state.

Yours truly,

Lyndon A. Smith,

Attorney General.

No such indeterminate permit shall be granted for the construction of a local telephone exchange in any municipality where such an exchange already exists, without submitting the matter to a vote of the people of such municipality as herein provided. Whenever application is made to the Commission for a permit for such second exchange, accompanied by a petition signed by a member of the legal voters of such municipality equal to twenty (20) per cent of the votes cast in said municipality at the last preceding general municipal election, the Commission shall thereupon give notice of the filing of said application and petition by mail to the municipal clerk and the existing exchange. Telephone Company to construct and operate a local telephone exchange.” Such special election shall be called, held and conducted in the same manner as other special elections in such municipality, the results thereof shall be certified in the same manner as in other elections and within ten days thereafter such recorder or clerk, as the case may be, shall certify the results of such election to the Commission. If sixty-five (65) per cent of the votes cast upon such question at said election shall be in favor of granting said indeterminate permit for a second exchange the Commission shall, forthwith upon receipt of the

certificate of such election from the said recorder or clerk issue such indeterminate permit, and if sixty-five (65) per cent of the votes so cast are not favorable to such grant, the application shall forthwith be denied. Resolution by Mr. Sawyer, requesting the Committee on Printing to investigate the printing of unnecessary and extra large annual

reports and to curtail the size and number of same if possible.

Reports the same back as follows :

We have investigated and ascertained from the Expert Printer that copies for this year's reports is all or partially in the hands of the contracting printers, so that it is impossible to economize on these reports for this year.

The committee would recommend that the Printing Commission go over these reports thoroughly, cutting out all unnecessary and useless matter and consolidating those reports that can effectively be consolidated and such reports to be recapitulated into a report by the State Auditor.

We also find that the method now used in contracting for state printing and receiving bids upon such contracts is antique and practically impossible of intelligent interpretation; that we recommend that all printing for the state should be purchased through the Printing Commission, which would result in a considerable saving to the state; also that bids upon state printing be received for each individual job; that such form or jobs be arranged separately, so that an intelligent bid can be received upon the same.

We find that the Expert Printer has plenty of surplus time in which to systematize this department according to the above recommendation.

Mr. Warner offered the following resolution:

Whereas, It is quite generally believed that the bridges heretofore constructed and now being constructed in this state upon the public highways have cost, and are costing, an amount in excess of a reasonable price therefor, and

Whereas, It is claimed that combinations have been formed and now exist by means of which certain bridge contractors have agreed not to effectively bid against each other in certain sections of the state, and as a result of such agreements a virtual monopoly exists in such sections in favor of the contractor desired to be favored therein, and the contracts for building bridges are of necessity awarded without real competition, and

Whereas, Resulting from the conditions above referred to, excessive and unreasonable charges are made for the building of said bridges and an unnecessary and unjust burden is thereby placed upon the public,

Therefore, Be it resolved by the House of Representatives that there be made forthwith a full and complete inquiry and investigation of the alleged combination of bridge contractors, and the Speaker of the House is hereby empowered and authorized to appoint a committee of three members of this House forthwith to prosecute such inquiry and investigation and make report to the House not later than April 5th.

Said committee is hereby authorized to make full inquiry as to letting of contracts, suppressing of competition among bidders, division of territory among bridge contractors, interlocking directors of bridge companies, as to exorbitant prices paid for bridges, what steps, if any, can be taken to widen the field of competition and secure lower prices.

Said committee is hereby authorized and empowered to summon witnesses, compel their attendance, administer oaths, take testimony, and to give effect hereto, said committee is hereby authorized to employ a competent stenographer to aid in the work thereof. The evidence adduced by this investigation, if in the judgment of the committee the interests of the state so require, shall be turned over to the Attorney General for action.

Mr. Warner moved that the resolution be printed in the Journal and laid over for the day.

Which motion prevailed.

Mr. Adams moved that when the House adjourns Saturday it adjourn to the following Wednesday at 10 o'clock A. M.

Which motion prevailed.

Mr. Girling offered the following resolution:

Mr. Speaker and Honorable Gentlemen of the House:

Greetings:

Whereas, On the walls of the retiring room of the House, above the fireplace, there is emblazoned a quotation from Bacon, which every member of this body might read, re-read and ponder with peculiar profit to himself and his constituents at this particular time; which quotation is as follows:

“Measure not despatch by the times of sitting, but by the advancement of business,”

And whereas, It is a fundamental legislative axiom that the less the number of measures considered the better the legislation enacted,

Therefore, be it resolved, That this body do, from now until the conclusion of the thirty-ninth legislative session, devote greater time to personal study and committee discussion and settlement of pending matters and less time to useless, time-sacrificing and gallery-play oratory on the floor; and

Be it further resolved, That to achieve this end so greatly desired for the true welfare of the state's affairs, that

Every member of this body is hereby urged to join, co-operate and aid in this highly desirable proposal, by limiting the length of each daily session of this body, so that the work in committees made be advanced to the desired point with all possible despatch.

Mr. Girling gave notice of debate so the resolution was laid over under the rules.

Mr. Indrehus, from the Committee on Game and Fish, herewith submits the following report from the sub-committee to inspect the fish hatcheries at Glenwood and Detroit.

REPORT OF SPECIAL COMMITTEE.

To the Chairman of the Game and Fish Committee
of the House of Representatives.

Sir: Your sub-committee on Game and Fish, who were authorized by resolution of the House, to inspect the fish hatcheries at Glenwood and Detroit, respectfully submit the following report:

Your committee visited the State Fish Hatchery at Glenwood on February 20th, 1915, and the Detroit Hatchery on February 21st.

At each hatchery, we found every evidence of the same being operated in a thoroughly efficient and satisfactory manner. We find the Glenwood Hatchery equipped with one building containing batteries for hatching 1050 quarts of pike perch eggs, one building equipped for hatching 2½ million trout eggs, and ponds for rearing 200,000 bass and crappie fry. There is also at this hatchery a large and commodious residence for the superintendent of the hatchery, a cottage for the assistant superintendent, barn, rearing ponds for trout, and we find that additional springs and water supply have been purchased for an additional trout hatching house. Plans and specifications for this building have been prepared. This was done at a time when it was understood that an appropriation was available for constructing an additional trout hatching house at this place but which, through some error or misunderstanding, never became available for use.

We would recommend that the request of the Game and Fish Commission for an appropriation of \$6,000.00 for constructing such a hatching house be approved by this committee.

At Detroit, we find that the hatchery has been equipped for hatching 1,176 quarts of pike perch eggs, 250,000 trout, and that

there is sufficient pond area for rearing about 35,000 bass and crappie fry.

At this hatchery it is desired to purchase additional lands sufficient to provide for about 25 acres of pond surface for hatching and rearing bass and crappie fry. We examined these lands which it is desired to purchase for this purpose, and the available water supply, and believe that the situation is admirably adapted to the purpose. The lands are offered to the state for about \$30.00 an acre, a price which would appear to be very reasonable. The Game and Fish Commission is requesting an appropriation of \$15,000.00 for the purpose of buying these lands, erecting a building and excavating ponds. Your committee believes that the appropriation should be granted.

The estimated production of this hatchery, of bass and crappie after being enlarged as proposed, would approximate half a million bass and crappie fry. The lowest estimate of the value of bass and crappie fry made by fish culture experts is \$40.00 per thousand. Therefore, a production of ten thousand fry per acre would yield 250,000 annually of these varieties in this hatchery after development as proposed, which would have a value of \$10,000.00.

There is great demand by the people of the state for increasing the output of fry of that variety, there being over nine hundred applications now on file in the office of the Game and Fish Commission for bass fry, which cannot be filled for the reason that the state has insufficient equipment for producing the fry. From inquiries and investigations we have made, we believe that there is no question as to the great value of the fish culture work to the state, and we believe it should be developed along practical and substantial lines as rapidly as possible. Owing to the rapidly increasing population of the state and consequent greater amount of fishing being done in the waters of this state, the demand for fish fry is rapidly increasing and will continue to increase. This demand should be met so far as possible for the reason that artificial propagation of food fishes furnishes the only method by which the serious depletion of the waters of the state can be prevented.

We commend the action of the Legislature in establishing these hatcheries and we believe that they should be developed and quipped to the fullest extent. The Game and Fish Commission has evidently made the best possible use of the funds which have been available in the past for these hatcheries and the request which they are now making for their improvement and enlargement, we believe to be very conservative and that everything requested should be granted.

The development of artificial propagation of fishes is of importance in Minnesota fully equal to any other public undertaking whether it be for the development of education, public health, good roads, or any other public enterprise, and we urge that no more useful work can be encouraged by the Legislature of this state than that of the replenishing and stocking of our abundant public waters with food and game fishes, a work which contributes not only to the material benefit of the people but to their enjoyment and their health and happiness.

Dated, March 3rd, 1915.

Which was adopted.

In line 3 of Section 3 of the Senate File the word "or" where it appears in said line does not so appear as new matter, whereas same does appear as new matter in said House File.

In line 6 of said Section 3 the following words, to-wit: "and companies organized exclusively to write insurance against loss or damage by cyclone, tornado and wind storms or any one or more of them, upon the mutual plan," appear in said House File as new matter but fail to so appear in said Senate File.

In line 38 of Section 3 of said Senate File the word "been" erroneously appears between "previously" and the word "charged" where said words appear in said line, which said word "been" does not so appear in said House File.

EXECUTIVE AND OFFICIAL COMMUNICATIONS.

EXECUTIVE DEPARTMENT,
STATE OF MINNESOTA,

St. Paul, March 11, 1915.

To the Senate and House of Representatives:

Gentlemen—

I strongly favor the enactment into law of "A bill for an act to establish a civil administration code." It is the final report of the Economy and Efficiency Commission.

The purpose of the proposed legislation is to substitute business efficiency and system for unbusinesslike practices.

The bill is not perfect. It may need amendment. If put in operation it will without doubt be found necessary to change many details of it; but as it is written, it is so immeasurably better than present conditions that I feel sure the Legislature will fail to advance the best interests of the State if it is not made into law.

Let me quote from the report of a legislative committee of a sister state:

"It should be understood at the outset that in recommending changes in the business affairs of the state, criticism of men responsible for the conditions sought to be altered, is not intended. Progress invites abandonment of many things most efficient in the days when man's limit of advancement was spelled by the thing abandoned. We forsake the less efficient for the thing of greatest efficiency and thus and thus only may advancement be made."

This statement accords with my own attitude toward the proposed legislation.

The changes proposed are not radical, nor are they unreasonable. All the activities of the State will be carried on, all its functions performed. But the State affairs will be administered upon the general principles tried and approved by the Government of the United States, by many of our cities, and by most of the great business corporations of this country. Independent boards and commissions, of which we have a number, will be brought under effective supervision and into co-ordination with other branches of the State Government and under one management.

Referring to the board system, the Commission says:

“Students in political science are all agreed that executive work should be done by individuals and not by boards. The average citizen has come to the same conclusion. The board system tends to delay and inefficiency. It dissipates responsibility. No one knows exactly who is to blame if work is badly done. Boards are necessary for legislative and judicial work; they are useful to give advice; they are not suited to administrative tasks. Moreover, under the board system the Governor has little control over the administration. The board members usually have overlapping terms. Each Governor appoints only a minority. Each board is a government by itself.”

This legislation makes for economy through efficiency. Efficiency is economy.

It is a mistake to suppose that the bill creates numerous additional salaried positions. In the case of all, except four of the paid officers provided for, one or more present salaried officers are replaced. These four are the directors of public domain, labor and commerce, agriculture and the commissioner of civil service. No new salaried boards are created. Every nonsalaried board provided for by the bill takes the place of at least one and in most cases several existing boards.

The most obvious places at which reductions will be possible are as follows:

1. In the office force of the public examiner as the result of combining his office with that of the auditor, to whom the bill makes him subordinate.
2. In the number of cruisers and appraisers required for valuing state land and timber, by reason of the employment of men in the Bureau of Forestry for that purpose.
3. In the expense for salaries of forest rangers and game and fish wardens. In a good many cases the same person can perform both functions, and the bringing of the two bureaus concerned into a single department will permit such an arrangement.
4. In the office expenses (generally small) and travel expenses of the several boards now connected with the various services relating to public domain (timber commissioners, drainage board, highway board, reclamation board, game and fish

commission and forestry board). This does not refer to actual operating expenses for the service proper, but to the expenses incidental to the boards as boards. The substitution of one board of public domain for these six boards should permit an appreciable reduction in overhead expenses.

5. The substitution of the one board of public welfare for the board of visitors of state institutions, the board of women visitors, the board of health, and the board of the state public school should permit some saving in expenses similar to that mentioned in the preceding paragraph.

6. The substitution of one board of education for the normal school board, the high school board, the state library commission and the board of the schools for deaf and blind should similarly permit some reduction in overhead expenses.

7. The placing of the function of boiler inspection under the commissioner of labor should mean a material reduction in net state expenditures. It is true that the boiler inspectors are now paid by fees. Under the proposed plan appropriations will have to cover the cost of the work in the first instance but the fees will come to the state. At the present rate of fees the amount collected should exceed the reduced cost resulting from the employment of the same men who perform other functions for the bureau of labor to inspect boilers. Moreover, the placing of a head over the function of boiler inspection should permit more economical adjustment of routes and districts than is possible where each inspector works separately without direction.

8. The placing of the fire marshal under the commissioner of insurance should permit a reduction in office force. Apparently the position of assistant fire marshal becomes unnecessary as well as some others.

9. Combination of the functions of inspecting foods, weights and measures and oils, under the commissioner of standards should make immediately possible a smaller number of inspectors than now required. In many cases the same man can act in all three capacities, saving time and travel expense. This is probably the largest immediate item of saving to be made.

10. The cost of preparing exhibits to be used by the commissioner of immigration in advertising the state, and the cost of publicity regarding the state fair, should both be reduced as the result of placing the state fair and the bureau of immigration in the same department under the director of agriculture.

The plan comes from a commission of thirty men, including the president of the State Federation of Labor, six bankers, two capitalists, eight lawyers, one political writer, two editors, one clerk of the district court, one member of the State Board of Health, the private secretary to the Governor, one member of the Educational Commission, two University professors, one, the president of the American Economic Association, and a number of experienced business men. The consulting statistician is a University professor and formerly director of the United States census. Eight of the members have had experience in the State Legislature. All sections of the state and all phases of political affiliation were represented. The members served without pay, bore their own traveling expenses, and raised money by private subscription to employ a secretary, who is a well known newspaper writer.

The Legislature cannot be indifferent to the conclusions of such men and must give them all the greater weight because they are not influenced by personal considerations.

There is little danger of the building up of a political machine. At present the Governor appoints a few heads of departments, a large number of boiler and oil inspectors, and a great many members of boards. All or nearly all of the board members serve without pay. Under the reorganization plan the Governor would not appoint so many officials and board members. But an efficient civil service law is an insurmountable obstacle to the establishment of a political machine, and such a civil service law is a part of the reorganization plan.

In a former message to this Legislature, I spoke briefly of the general purpose of the reorganization, of the inauguration of a merit system in the selection of state employees and the civil service law and of the budget system; all included in the plan proposed by the commission and incorporated in the bill now under consideration.

I trust the multiplicity of bills presented to the Legislature and the many duties demanding the attention of its members will not prevent them from giving to this legislation the study and consideration it deserves. I think there is little doubt but that with such study and consideration it will have the approval of the Legislature.

I beg to submit herewith for your consideration four letters which have been received by me, two from elective officers of the state, and two from appointive officers.

Very respectfully,

WINFIELD S. HAMMOND,

Governor.

STATE OF MINNESOTA,
Office of the Auditor of State.

St. Paul, March 1, 1915.

*Hon. W. S. Hammond,
Governor of the State of Minnesota,
St. Paul, Minnesota.*

Sir: Responding to the suggestion that I write you my opinion as to the wisdom of enacting the proposed bill prepared by the so-called Efficiency and Economy Commission for reorganization of the civil administration of the State, permit me to state that it is my opinion that the enactment of this bill into law would do much to promote both efficiency and economy in our State Government.

There are six consolidations proposed, the merits of which I have some knowledge as well as experience.

First. The bill proposes the consolidation of the Fire Marshal's office with the Insurance Department. If this were done, it would no doubt be the policy of the Commissioner of Insurance of having the various fire deputies engaged largely in the inspection of fire risks with a view of reducing fire losses and of obtaining lower fire insurance rates for property owners, and that the prosecution of incendiarists be continued, but not made the primary object of the Fire Marshal's department.

Second. The measure proposes the abolition of the Immigration Board, of which the State Auditor is a member, and placing the bureau directly under the Director of Public Domain, appointed by the Governor. The appointment of the Immigration Commissioner by a board consisting of three constitutional officers, elected by the people, and two members elected by such three officers, constitutes a fantastic and ingenious method of dividing responsibility. Responsibility to one head on the part of the Immigration Commissioner would certainly be far more satisfactory to him and necessarily give him a freer and more unhampered hand with which to conduct the affairs of the department.

Third. The Drainage Commission, consisting of the Governor, the Secretary of State and the State Auditor, elects a Drainage Engineer. The same arguments which hold true in regard to the abolition of the Immigration Commission hold true in regard to the Drainage Commission.

Fourth. The State Printing Commission consists of the Secretary of State, the State Treasurer and the State Auditor. The

same argument as holds true in regard to the Immigration Commission can be used relative to this commission.

Fifth. The bill, together with a recommendation for a constitutional amendment, proposes the separation of the Land Department from the State Auditor's office and the consolidation of the Public Examiner's office with the State Auditor. The State Auditor's office, if relieved of the duties of Land Commissioner, could devote itself entirely to the work of auditing the accounts of the State. There is no more reason why the State Auditor should be Commissioner of Lands than that the Secretary of State or the State Treasurer or the Attorney General should be Commissioner of Lands or that any one of these officers should be Superintendent of Banks or Commissioner of Insurance. While the State Auditor might perform the duties of Land Commissioner in a satisfactory manner, this does not alter the fact that an auditor should be primarily the checking officer and the State's accountant, and the functions of the Commissioner of Lands are such which properly should come under the head of the civil administration of the government, to-wit, the Governor.

Again, the State Auditor should ex-officio, be the Public Examiner. As at present constituted, the Governor is elected by the people and the Governor in turn selects a person to determine the propriety of his own expenditures. There can be no question but what the official acts of the Governor and his appointees in the disbursement of the State's funds should be examined by some officer other than one made by his own selection, and this function should properly devolve upon the State Auditor. As at present constituted, the Public Examiner must necessarily, in spite of the fact that the State has always been well served in this capacity, be subjected to a dual desire, first of serving the people of the State in determining that no funds are dissipated, but secondly that his chief, the Governor, be not embarrassed by criticisms made by the Public Examiner of any member of his official family.

Again, if the State Auditor were ex-officio Public Examiner, his examiners could properly ascertain through his corps of accountants examining the various State Departments where savings could be accomplished by uniform and improved methods and be systemizing of office forces.

Sixth. Relative to the State Timber Board, I desire to make no comments.

While I, as well as every other individual studying the report of the Efficiency and Economy Commission, believe that improve-

ments can be made upon the plan proposed, nevertheless it is my opinion that the clock of the State would be turned forward a generation by its enactment at this time.

I have the honor to be, sir,

Your obedient servant,

(Signed), J. A. O. PREUS,

State Auditor.

STATE OF MINNESOTA,

Department of Education.

St. Paul, March 3, 1915.

*Mr. W. S. Hammond, Governor,
The Capitol, Saint Paul.*

My dear sir: Plans are proposed by the Public Education Commission for the reorganization of the state supervision and control of public education. These embody the creation of a state board of education to supplant all existing state educational boards except the Regents of the University, and the election by the proposed State Board of the Superintendent of Education as their executive and administrative officer.

In its recommendations on this subject the Educational Commission is in accord with those made by the Economy and Efficiency Commission relating to the same subject. So far as I am able to judge by experience the proposed plan of administration for public education will result advantageously. Closer co-operation between the different parts of the public school system will, I believe, be the result. If the state board of education is given a free hand in the administration of all that relates to the educational affairs of the service under its control, I believe the proposed plan is fully desirable.

The proposal to establish a Council of Education composed of the Board of Education and the Regents of the University for the consideration of common questions and for the submission of an educational budget is a sensible, practical and highly desirable recommendation.

So far then, as the recommendations of the Economy and Efficiency Commission relate to educational affairs, I believe they are in the interest of the public service.

Very truly yours,

(Signed), C. G. SCHULZ,

Superintendent of Education.

Board of Game and Fish Commissioners.

St. Paul, Minn., March 6, 1915.

*Hon. W. S. Hammond, Governor,
State of Minnesota,
Saint Paul.*

Sir: Permit me to refer briefly to the probable effect on the Game and Fish Department of the plan for re-organization of the state government as proposed by the Efficiency and Economy Commission.

I am particularly impressed with the excellence of the civil service features of the plan, having in view the probable effect of such a merit system on the game warden service of this department. Under the present system it is not difficult to secure efficiency in the service in the case of positions known to require special and technical knowledge such as positions under the Superintendent of Fisheries, including fish culturists, hatchery superintendents and so forth.

This condition does not prevail, however, with relation to the game warden service and more or less difficulty is constantly encountered in preventing the foisting upon the department of unworthy and incompetent men seeking employment as game wardens. I believe that the merit system as provided in the Efficiency and Economy plan would quite effectually protect the warden service in the employment and retention of competent and qualified men and would also relieve the office of the game and fish commission from the vast number of importunities of those desiring appointments for themselves or their friends.

The merit system contemplates the appointment of all officers and employees from a list of eligibles to be secured by competitive examinations held by a civil service commission, and the plan provides for the retention in their employment of men who prove their efficiency in the employment in which they are engaged.

The merit system as applied to employment of game wardens has been in vogue in Wisconsin for a number of years and from all the information I have been able to obtain has resulted in raising the standard of this service in that state to a marked degree.

Whether the efficiency and economy plan would result in greater economy in the service in this department I am not

prepared to state but I am convinced that it would, beyond doubt, result in greater efficiency, particularly in its effect, as above referred to.

Respectfully,
(Signed) CARLOS AVERY,
Executive Agent.

Office of the Attorney General.

St. Paul, March 2, 1915.

Hon. Winfield S. Hammond,
Governor,
State Capitol.

Dear Sir: In response to your suggestion that I should give you an opinion in reference to the bill (now before the Legislature and as to which you are about to send a communication to the Legislature) entitled, "A bill for an act to establish a civil administration code," I have to make the following statement:

The final report of the Efficiency and Economy Commission, which is incorporated into this bill, shows that much care and thought have been taken in devising a new plan for the administration of the civil government of this state. The report is full of suggestions as to a re-combination of the different departments of the state, which it seems to me will in the majority of cases secure a better co-ordination of the work. A system is devised which has its checks and balances and unifies the work of state government.

The introduction into the office-holding of the state of the principle of civil service is a step forward and meritorious. Though the employees of the state have been largely selected for their competence in the past, yet it is necessary to the accomplishment of the greatest amount of labor, in the best possible manner for the state, that the selection of employees should be put upon a system such that no one can get into the public service without being qualified for the position which he is to fill.

I have examined this bill with reference to the question of its harmony with the Constitution of the state. There are some details which seem to be inconsistent with some of the provisions of the Constitution. These details are generally matters of minor

importance and not such as to interfere in any serious way with the operation of the act. Its substantial constitutionality is beyond question. The powers and duties now imposed upon officers are either continued in them or transferred to others to such an extent and in such a way as not, in my judgment, to interfere with the continuity of our State Government, provided suitable amendment be made of certain laws that the passage of this act will render either inharmonious or inapplicable.

The act gives to the Governor an opportunity to have a strong influence upon the affairs of the state. For many years the laws have been such as to take from the Governor the control and power in state matters which the original framing of our State Government and that of sister states contemplated. This plan restores to the Governor a power and prestige in keeping with the place which he occupies as it is estimated in the minds of the people. When a political campaign is in progress the election of the Governor is the paramount issue. The adoption of amendments to the Constitution and the election of the other officers of the state fall into the background in relation to the election of the chief magistrate. After he is inaugurated he should have power commensurate with the responsibility which the people believe they have placed in him and for the use of which they hold him accountable. This act is in line with the placing of ultimate responsibility where the people believe it to be, and to my mind where they think it ought to be.

There are some things about the bill to which I cannot give my approval. It does not afford sufficient provision against the building up of a political machine. Such provision may be made, I think, without destroying the unification of the civil government under one ultimately responsible authority. The State Government, in my opinion, can be made, by skillfully drawn civil service laws and non-partisanship legislation, to work together as a harmonious whole, with the Governor at its head, without becoming thereby a political machine.

The responsibility of elective officers to those who elect them is not preserved direct and unimpaired under the terms of this bill. The grouping of the fields of governmental action is not always based on their essential relations. The words used in many instances are so removed from the ordinary legal terminology as to make the interpretation of many of its provisions difficult.

The conclusion which I reach is that the bill is one of merit. The Legislature, by carefully adjusting and finishing the work of

the Commission, can make it most salutary.

Yours truly,

(Signed), LYNDON A. SMITH,

Attorney General.

Amend the title of said bill by inserting after the comma next after the figures 38 in the first line of the title of said bill the figures and character following, to-wit: "40."

Further amend said bill by adding thereto a new section which shall be inserted in said bill next after Section 8 thereof; said new section to be numbered Section 8A and read as follows:

Section 8A. That Section 40 of Chapter 235, Laws 1913, be and the same is hereby amended so as to read as follows:

Section 40. TAXATION FOR ROAD PURPOSES.—Subdivision 1. All real and personal property in each town liable to taxation, other than “moneys and credits” taxed under Chapter 285, Laws 1911, shall be taxed for road purposes. All road taxes hereafter levied shall be paid in cash and hereafter no highway labor shall be assessed, except when authorized in the manner specified in Subdivision 2 of this section.

The electors of each town shall have power at their annual town meeting to determine the amount of money which shall be raised by taxation for road and bridge purposes, not exceeding, however, fifteen (15) mills per dollar on the taxable property of the town. The tax so voted shall be extended, collected and payment thereof enforced in the same manner and at the same time as is provided by law for the extension, collection and enforcement of other town taxes.

After the annual town meeting, in case of emergency, the town board may levy a tax on the property in its town for road and bridge purposes in addition to the tax, if any, voted at the annual town meeting for road and bridge purposes, in an amount not to exceed five (5) mills on the dollar of the assessed value of the property in the town, and any tax so levied by the town board shall forthwith be certified to the county auditor for extension and collection.

The town board may thereafter pledge the credit of the town by issuing town orders not exceeding, however, the amount of the additional tax so levied by the town board for road and bridge purposes, in payment for work done or material used on the roads within the town.

Subdivision 2. The electors of each town may at their annual town meeting vote upon the question of whether a tax for road and bridge purposes, additional to the tax provided for in Subdivision 1, hereof, shall be assessed against the real and personal property of the town, other than moneys and credits taxed under the provisions of Chapter 285, Laws 1911. The tax provided for in this subdivision shall be additional to the tax provided for in Subdivision 1 of this section and may, for convenience be termed a “labor tax” and if levied and assessed may at the option of the person taxed be paid in labor as hereinafter provided.

Subdivision 3. At one o'clock of the day on which the annual town meeting is held, or as soon after that time as the orderly

carrying on of the business of said meeting will permit, the voters then present shall vote on the question, which shall be stated by the presiding officer substantially as follows:

“Shall a labor tax, additional to the cash tax for road and bridge purposes, be levied and assessed?”

If a majority of the electors voting on such question vote in the affirmative, the electors shall then and as the next item of business, determine the amount of such tax for road and bridge purposes which shall be so levied and assessed, not exceeding, however, seven mills on the dollar of the taxable value of the real and personal property of the town, taxable under the provisions of this section.

Subdivision 4. In each town in which a “labor tax” has been voted under the provisions of Subdivision 2 of this section, the town board shall, within twenty days after such annual town meeting, meet and prepare in duplicate, a list for each road district containing:

(a) The name of each person assessed for personal property in each district, the amount of such assessment set opposite thereto in a separate column and in another column the amount of the “labor tax” assessed and levied upon such personal property, computed at the rate of levy determined by the voters at the annual town meeting.

(b) A description of all tracts of land in each district, and in a separate column, the assessed value thereof as shown by the assessment roll of the preceding year; the name of the owner of such land, if known, and the amount of “labor tax” assessed thereon, computed at the rate of levy determined by the voters at the annual town meeting.

It shall be the duty of the town clerk and the several road overseers of the town to meet with said town board and assist it in making up such lists, when requested so to do by the town board. Such lists when completed shall be subscribed by the members of the board and one copy of each thereof shall be filed with the town clerk and a copy shall be delivered to the overseer of the district to which the same refers.

Subdivision 5. The overseer shall give at least three days’ notice to all the persons named in such lists of the time and place, when and where they shall appear for work and with what teams and tools. Such persons may appear personally or by abled bodied substitutes, or they may elect to pay such “labor tax” in cash to

the overseer. Each able bodied man shall be allowed two (\$2.00) dollars per day for each day of labor performed by him and a like amount for the use of a team, and wagon, plow or scraper.

When a person named in such list shall have, either by himself or an able bodied substitute, performed labor or furnished a team for such a period of time as at the rates hereinbefore specified will constitute a payment of the tax levied and assessed against him, the road overseer shall receipt the list so furnished to him showing that the tax assessed against such person has been paid. If some labor or service has been performed, but not enough to fully pay the tax, the overseer shall make a notation on such list showing the amount paid and the amount remaining unpaid.

Subdivision 6. On or before October 1st, in each year, each overseer shall deliver to the town clerk the list furnished to such overseer with his certificate thereon that all taxes in said list, opposite which the words "paid in full" are not written, are due and unpaid to the extent and in the amount shown by such lists, to the best of his knowledge and belief.

Subdivision 7. On or before November 1st in each year the town clerk shall make such notations on the lists filed in his office as will make the same accord and agree with the lists returned to the town clerk by the road overseer of the respective districts and append thereto a certificate that the same is a correct list of all "labor taxes" remaining delinquent for the year therein specified. He shall then transmit the same to the County Auditor who shall extend such unpaid taxes upon the tax list of the current year, setting opposite each amount the number of the road district in which such tax was levied. It shall be the duty of the town board to number the road districts of the town in case there is more than one such district, and to certify to the County Auditor the territory respectively embraced in each of such districts. The unpaid "labor tax" so certified to the County Auditor shall be collected and the payment thereof enforced at the same time and in the same manner as other town taxes are collected and shall be subject to the same penalties for non-payment as are other town taxes.

When collected, such "labor tax" shall be paid to the town treasurer and applied to the construction, repair and improvement of the roads and bridges of the road district in which such tax was levied, under the general supervision of the town board.

Immediately after every tax settlement, the auditor shall mail to each town clerk a statement showing the total amount of "labor tax" collected in each of the several road districts of said town

since the last tax statement. The town clerk shall keep a record showing the collection and expenditures of such "labor tax" in each road district and shall at the next ensuing annual town meeting present a complete report of such collection and expenditures for the previous year.

Subdivision 8. Any person, who, without good excuse therefor, fails to appear at the time and place specified by the road overseer, ready and prepared to work, or who fails to furnish a team as directed by the road overseer, shall not thereafter, during the then current year, be permitted to work out his "labor tax."

Subdivision 9. All "labor taxes" so assessed and paid to the overseer in cash shall be by him paid into the town treasury and thereafter be expended under the supervision of the town board in the construction, improvement and repair of the roads and bridges in the road district from which they were so paid.

Subdivision 10. Each overseer on the second Tuesday next preceding the time of holding the annual meeting, shall render to the town board a report in writing, containing:

(a) The names of all persons who have paid their taxes in cash, the amount so paid to him and the date when he paid the same to the town treasurer.

(b) The names of all persons who have paid their "labor tax" in work or by furnishing a team, and the amount of the tax so paid.

Subdivision 11. For the purposes of this act, nine hours labor shall be deemed to constitute a day's labor.

Subdivision 12. Any overseer who shall knowingly make any false or fraudulent entry in the lists furnished to him by the town board, or who shall credit any person named therein for labor or for the use of a team when the same was not actually and in good faith performed or furnished, shall be guilty of a felony.

PETITIONS AND COMMUNICATIONS.

ST. PAUL, MINN., March 13, 1915.

*Hon. Samuel Y. Gordon,
Chairman Special Economy Committee,
House of Representatives.*

Sir:—

You ask my opinion of the so-called "Efficiency and Economy Commission" bill now under consideration in the Legislature. I cheerfully comply with your request.

The Constitution of Minnesota, with but few changes in nearly sixty years, stands a monument to the patriotism and wisdom of the founders of our State. The officers named in the fundamental law are elected by the people, and each accountable only to the people. They were given duties which covered the needs of the State at that time, with provision for further duties as the Legislature might designate. The Governor was given large powers as the Chief Executive. This was a well-balanced organization, and was clearly designed to minimize the centralizing of political power. The United States government, quite to the contrary, elects one man, the President, who appoints his cabinet and all other officials, civil and judicial. The citizenship in Minnesota has never favored any system that might aid the building of a "political machine."

Any public official or citizen who honestly strives to promote efficiency and economy in public affairs deserves hearty commendation. There may be honest differences of opinion as to the methods to attain such results. In his special message to the Legislature of March 11, 1915, Governor Hammond gives several reasons for advocating this Commission bill, which all can approve. In his message the Governor said:

"The changes proposed are not radical, nor are they unreasonable. All the activities of the State will be carried on, all its functions performed. But the State affairs will be administered upon the general principles tried and approved by the Government of the United States, etc."

I wish to take issue with our Governor when he sets up the United States system as a model for Minnesota. In support of my contention, I wish to present the testimony of ex-President Taft. These are extracts from his article on "Economy and Efficiency in the Federal Government," published in the Satur-

day Evening Post of February 6 and 13, 1915. President Taft appointed a commission to investigate this subject. He said:

“Appropriations are made under a system of committee organization that makes impossible the location of responsibility for acts authorizing the expenditure of over one thousand million dollars. For example, it was found that seven departments, besides the Isthmian Canal Commission, were dealing with the subject of providing facilities for transportation; that four departments and three commissions were dealing with the regulation of commerce and banking; two departments and the Library of Congress were dealing with copyrights and patents; five departments were dealing with subjects of agriculture, forestry, fisheries and care of the public domain; five departments were dealing with the promotion and protection of public health; and six departments were dealing with the care and education of the defective, dependent and delinquent. * * *

“The most effective instrument that has ever been devised for locating official responsibility is commonly known as a budget. In this country we have never had a budget.”

In recent years the people of Minnesota have created many new governmental functions and institutions. Boards and commissions have been established, often without any thought of harmonizing or co-ordinating with other departments giving similar service. We have several hundred inspectors of various kinds, trailing one another about the State, such as Dairy and Food, Factory, Boiler, Oil, Hotel, Weights and Measures Inspectors, Game Wardens, Forest Rangers, Fire Marshals, etc. The people are very weary of seeing this procession of State Inspectors and complain of the rising tide of taxation. For several years, in public addresses, I have referred to those numerous Boards and Commissions, and in my official report to the 1915 Legislature I said (page ix.): “A reduction of the burdens of taxation and a sensible simplification of our governmental organizations will be heartily applauded by the people.” The thirty able gentlemen who comprise the “Economy and Efficiency Commission” have labored long and faithfully and without even getting their expenses paid. The people of the State hoped the bill which they had made would give them relief from increasing taxes and greater efficiency in service. I also shared this hope. Being familiar with our present system, I eagerly read the provisions of the bill and endeavored to learn about its many interesting changes. I was impressed with the great

amount of work—and hard work it must have been—put upon this bill. But the more I looked into it, the more it seemed to me that the framers of the bill have undertaken too much—in fact, much more than the people were looking for. The bill disorganizes and then reorganizes almost every department of the State government. So far as I know, there has not been any serious criticism of the more important and active departments of the State, such as the Railroad and Warehouse Commission, Tax Commission, Board of Control, Department of Education, Insurance, Banks, Public Examiner, Bureau of Labor and others. Nearly all the administrative departments are appointed by the Governor and subject to his direct control. The people were not complaining of the form of our government, but wanted to retire a lot of supernumeraries and abolish a lot of Boards where they could be united with other departments, thus adding both efficiency and economy. Instead of this the bill proposes to rebuild our whole structure, except the constitutional offices. It was even suggested that the Secretary of State, Attorney General and State Treasurer might also be appointed by the Governor. The plan proposed by the Commission is similar to that of the United States government, with its multitude of departments and bureaus from the cabinet down. Instead of simplifying our government, as I view it, the proposed system is far more intricate and complicated than the one we now have. For example, under Public Domain (sub-Title III.), the Auditor, of course, retains the duties fixed in the Constitution as to appraisal and sale of lands and care of swamp lands, etc. (page 15.) The Commissioner of Public Lands becomes the custodian and supervisor of state lands, has the care and control of mineral lands, collects for trespass except timber trespass, which devolves on the Commissioner of Forestry, who also sells and scales State timber. The Commissioner of Lands selects the lands to be sold and so advises the Auditor; thus three departments or bureaus would have to do with State lands instead of one as now, the Auditor. I have for many years advocated the creation of a separate land department with an officer in charge to be elected by the people. He would have one of the most important offices in the State.

I want to mention another very important matter. Under the present law, we have a Board of Audit, consisting of the Governor, Attorney General and Secretary of State. Its duty is to at least four times a year, unannounced, make an examination

of the cash and bonds in the State Treasury, first obtaining a statement of funds from the Auditor.

The Board of Deposit consists of the Auditor, Treasurer, Secretary of State, Attorney General and Superintendent of Banks. Its duty is to designate depositories for State funds. The Attorney General and Superintendent of Banks are invaluable members of the Board of Deposit. The Board of Investment consists of the Governor, Treasurer and Auditor. It now has complete charge of trust fund investments in bonds, etc. It is proposed in this bill to abolish the Boards of Audit and Deposit and place those duties in the Board of Investment. (Sub-Title II., Article VIII.) In my opinion, this would be very unwise. The State's cash and investments should be carefully guarded. Officers of the Board of Audit should in no manner be connected with the Auditor or Treasurer.

By examining the chart in the Commissioner's final report, it is noticeable that there is a more direct relationship with the Governor, the appointing power under our present laws, than under the proposed plan. The Governor is now a member of two educational boards and many others. For example, under "education" the Governor would appoint the Board of Education (a non-salaried governing board), the Board appoints the Superintendent of Education, who becomes the executive officer (see page 29). Then comes the care of Normal Schools and Schools for Deaf and Blind and their officers, the public schools receiving State aid, school and traveling libraries. .

The proposed plan seems to aim at relieving the Governor of all personal contact with administrative duties. Thus when the appointments are made, he looks to department heads for results. This plan is doubtless essential in the case of the President of the United States with several hundred departments and bureaus, but, as yet, in our State, I believe it would prove a positive loss in efficiency of service to remove the Governor from direct touch with the State's activities. In this respect the proposed bill is a radical departure from the spirit of the present system, even though it does not contravene the Governor's duties as prescribed in the constitution.

The foregoing are a few ideas bearing on the efficiency side of the question. At this hour the people have first in mind a reduction in taxation burdens. It is hoped that this can be accomplished without impairment of existing State functions and perhaps with greater efficiency. As to economy:

On the inside cover page of the final report of the Commission is a diagram showing increase in State expenditures, which is unfortunately grossly misleading. These erroneous figures are due to a lack of knowledge of the State's finances. No one will for a moment believe it was intentional. Governor Hammond used those figures in his inaugural message (page 13), and said: "Minnesota is one of the ten States whose governmental cost payments or expenses were from \$6 to \$10 per capita." The mistake was made by the Commission using the total cash disbursement from the State treasury for 1912, deducting only the school fund apportionment, and regarding the entire remainder as State government expense. Your attention is called to page 78, State Auditor's report for 1912. This shows total disbursements of cash that year to have been \$16,321,065.41. Included in that sum are some items which clearly are not a State expense, as follows:

| | |
|---|----------------|
| Raw material purchased for prison twine and machinery | \$1,010,437.55 |
| Loans to Minnesota municipalities from Swamp Fund | 234,580.00 |
| Loans to Minnesota municipalities from University Fund..... | 58,650.00 |
| Loans to Minnesota municipalities from School Fund | 1,733,000.00 |
| School Fund apportionment..... | 1,998,000.00 |
| <hr/> | |
| Total | \$5,034,667.55 |

Deducting \$5,034,667.55 from the total disbursements, we obtain \$11,286,397.86, or a per capita of \$5.13 on a population of 2,200,000.

This differs materially from "between fourteen and fifteen millions," as stated by the Governor. To be able to act intelligently, the Legislature and the Governor must have correct figures to reckon from. Our Prison Twine and Machinery Plant and our School and other Trust Funds are sources of great profit to the people and such financial operations should not be used to the disadvantages of the State.

A very pertinent question is, Will the proposed plan result in the saving of money? My opinion is that it will not. From my estimates, based on the scale of salaries suggested on page 67, the annual cost for the ensuing two years would be about

\$2,125,000 a year. Under the present system, with a moderate increase over last year, I estimate the cost for each of the next two years at about \$2,050,000 a year. As nearly as I can learn, the total number of State employes will not be reduced and the salaries no less.

My personal opinion therefore as to the proposed "Efficiency and Economy Commission" bill is:

1st. It is too elaborate and complicated for the needs of a State.

2nd. The civil service feature is commendable, but should be enacted in a separate law with several amendments.

3rd. The abolition of unnecessary Boards and uniting the service of related departments as demanded by the people and suggested in Governor Hammond's message are meritorious, but all this can likewise be done in a modest special law.

4th. The budget system is highly desirable, but this, too, can be obtained through a specially prepared law.

5th. It will in effect remove the Governor from official co-operation with his fellow officers and his appointive departments.

6th. It will tend to centralize political power in the Governor, which is contrary to the trend of sentiment in Minnesota.

7th. The Commission severely criticized the Board system, and yet the bill contains numerous Boards with far more intricate duties than of any Board now in existence.

8th. The bill has many excellent features, but as a general plan for reorganization of the State government it will not, in my opinion, promote efficiency, nor will it result in economy.

If I can be of any further service to you or your committee, do not hesitate to call upon me.

With highest personal regards, I am,

Yours truly,

SAMUEL G. IVERSON.

| Davis, | Holmes, | Nietzel, | Smith, | Mr. Speaker. |

Mr. Bjornson moved that further call of the House be dispensed with.

Which motion prevailed.

Mr. Adams made the following personal statement, which was ordered printed in the Journal:

"During the progress of debate on Friday, I used a word which was objected to by one of my colleagues, and was perhaps misunderstood by other members of the House. There is no one in this body who would be more loath to utter an untrue word or to take any action which was unfair if I so understood it. When the report of the Committee on Legislative Expenses was returned to this body carrying a large number of claims on account of contested elections and the attempt was made to hurry their passage through the House, I objected and stated that I believed that while some of them were just, I believed that in some of the others there was pure "graft." In these modern times when our language is being enriched by the creation of new words with their varied and delicate shades of meaning, it is not strange that they should be misunderstood and misinterpreted by some. The word "graft" is a comparatively modern word. Archæologists differ as to its derivation, but two sources are generally accepted as probable. One is that it is derived from the word "grab," which means to take something without giving proper return. The other is that it is derived from the word "graft" in the sense to cause to grow upon, as we would graft a limb upon a tree, or an oil or a hotel inspection system upon the state. The party who secures the benefit in the case of graft is naturally a "grafter," while the party, whether a state or an individual who suffered the loss would be the "graftee." The word "graft" must not be taken to mean in any sense the same as that other modern word, "boodle." There is a wide difference between these two words, although oftentimes used by the unthinking and inaccurate in the same sense. A "grafter" is in no

sense a "boodler." "Boodle" is the money paid to a person for doing an illegal act. "Graft" is money taken in a perfectly legal way without giving an adequate return. There are many ways of "grafting." An alderman in the city council who can so manipulate a public improvement that he can get the benefit of it while his neighbors bear the expenses would be as much of a "grafter" as if he took money without giving value received. When a man or woman is put upon the Legislative payroll and renders no service, but nevertheless draws the pay, it furnishes an instance of graft in its highest and best sense. "Graft" differs from "boodle" in that "boodle" is to bribe and is therefore criminal. "Graft" is perfectly legal when legalized in the proper way. The word "boodle" has as wide and varied meaning as "graft" and there are very many other expressions which are synonyms of "boodle" expressing the various degrees. For instance, if a farmer was paid \$50 for his vote upon a proposition before any legislative body, whether a council or a Legislature, that would be "boodle" in its pure and unadulterated form. If a member of some body who also was an attorney, received \$500 for acting in a constitutional way that would be a "retainer." If some special interests gave a candidate money and then he voted like an automaton through an entire session in the interests of the giver, that would be contributing to campaign expenses. If a railroad should give a member a pass after he had voted against the interests of the laboring man that would be a "courtesy." If a certain interest should pay the hotel bill of a member for an entire session in view of a favorable action upon a certain matter, that would be "hospitality," and so I might go on explaining the difference between "boodle" and "graft," but I think that I have made it clear that in using the word "graft" I was guilty of no criminal intent. Now, when these various claims come up for action, if it should be proven that in all instances the money was fully disbursed and for the interest of the state, then there would be no "graft," and in stating that I believe that there might be graft in some of them it would prove that I was laboring under misapprehension and was, therefore, wrong. As I said at the very outset, if it should be proven that I was wrong there is no one in this House that would regret it more than I, and if it was proven that I did not understand and did not comprehend, there is no one who would be more glad to make a proper apology."

The commissioner of insurance shall have power to examine any such rating bureau as often as he deems it expedient to do so, and shall do so not less than once every three years. A report thereof shall be filed in his office. The commissioner of insurance may waive such examination upon the filing with him of a report of such examination made by some other insurance department or proper

supervising officer within such three years. A statement with regard to such examinations shall be made in the annual report of the commissioner of insurance.

Sec. 2. No fire insurance company or other insurer against the risk of fire or lightning, nor any rating bureau, shall fix or charge any rate for fire insurance upon property in this State which discriminates unfairly between risks in the application of like charges and credits, or which discriminates unfairly between risks of essentially the same hazards and having substantially the same degree of protection against fire.

Any company or other insurer which shall desire to make any variation from the bureau rate upon any class of risks may do so, but shall file written notice of such variation with the bureau of which it is a member or to which it is a subscriber at least fifteen days in advance of such variation taking effect, and such variation shall be uniform and applicable to all risks of essentially the same hazard in the class for which such variation is made.

Sec. 3. Every fire insurance company or other insurer authorized to effect insurance against the risks of loss or damage by fire or lightning in this State shall maintain or be a member of a rating bureau. No such insurer shall be a member of more than one rating bureau for the purpose of rating the same risk.

A rating bureau may consist of one or more insurers, and when consisting of two or more insurers shall admit to membership any authorized insurer applying therefor. The expense of the bureau shall be shared in proportion to the gross premiums received by each member during the preceding year in this State, to which may be added a reasonable annual fee. Each member shall have one vote.

Every rating bureau shall maintain an office within the United States.

Within sixty days after the passage of this act, every fire insurance company or other insurer aforesaid, shall notify the Commissioner of Insurance in writing of each rating bureau making rates upon property located within this State of which it is a member and shall thereafter annually on or before February 1st report to the Commissioner of Insurance in writing each such rating bureau of which it is a member, and during the year file written notice of any other such rating bureau of which it shall become a member.

Sec. 4. Every rating bureau engaged in making rates or estimates for rates for fire insurance on property in this State shall inspect every risk specifically rated by it upon schedule, and make

a written survey of such risk, which shall be filed as a permanent record in the office of such bureau. A copy of such survey shall be furnished to the owner upon request.

Sec. 5. No fire insurance company or any other insurer and no rating bureau, or any representative of any fire insurance company or other insurer or rating bureau, shall enter into or act upon any agreement with regard to the making, fixing or collecting of any rate for fire insurance upon property within this State, unless in compliance with this act.

Any such agreement may be made and enforced, provided the same be in writing, and, prior to its taking effect, a copy thereof be filed with the commissioner of insurance and with each rating bureau of which any of the parties thereto shall be a member or subscriber.

The commissioner of insurance may, after due notice and hearing, upon complaint or upon his own motion, make an order disapproving any such agreement. No such agreement shall be in force, nor shall any act or rights be based thereon, after service of a copy of such order upon each of the parties to such agreement and upon each bureau with which such agreement is required to be filed. During the pendency of such proceedings upon review the order of the Commissioner of Insurance shall be suspended, but in event of final determination against any insurer any overcharge by such review shall be refunded to the person entitled thereto.

Sec. 7. Any fire insurance company or other insurer or rating bureau or representative of any fire insurance company or other insurer or rating bureau guilty of a violation of any of the provisions of this act or orders or findings of the Commissioner of Insurance made hereunder, shall be punished by a fine of not less than \$100 nor more than \$5000. | Davis, | Hinds, E. R., | Malmberg, | Schrooten, | |

So the motion prevailed.

Mr. Warner moved that H. F. No. 853 be placed on the Calendar subject to amendment.

Which motion prevailed.

Messrs. Girling, Christianson and Norton offered and moved the adoption of the following:

Whereas, after about one and one-half years' labor, what has been publicly known as the Economy and Efficiency Commission of Minnesota, produced what has been introduced in this House as House File No. 25, containing, as introduced, thirty closely written printed pages; and

Whereas, under a resolution of this House duly introduced and duly adopted, a special committee was created, known as the Economy and Efficiency Committee of this House, to which said House File No. 25 was duly referred, and upon which said committee held a series of public hearings to which all persons feeling themselves interested, were publicly invited and given opportunity to be heard relative to all or any part of said House File; and

Whereas, as a result thereof, the said House Committee on Efficiency and Economy reported said bill back to this House carrying sundry and various amendments, not yet digested by the membership of this House nor the full effect thereof known or understood by the members of this House; and

Whereas, the said amended bill having been made a special order in this House and brought on for hearing, upwards of

fifty additional amendments were offered thereto, eight of which were offered by the Chairman of the said Economy and Efficiency Committee, and the residue thereof by different members of this House, thus creating new issues and new questions for careful consideration, resulting in the said bill and all of the amendments proposed thereto being re-referred to the said Committee on Efficiency and Economy, under instructions thereto to re-analyze the said bill, in all of its parts and thus ascertain and report upon whether or not the said numerous amendments should be in some part or altogether made thereto, or what, as the said committee may advise, better be done in the premises—relative to the said House File; and

Whereas, in all probability, said committee, in view of other pressing labors aggregated in these closing days of this session, will not be likely to be able to re-report said House File to this House for further consideration till some time during next week—leaving but little time or opportunity for mature consideration of the said bill or of the said amendments thereto proposed, and

Whereas, probably not any considerable number of the members of this House have, as yet, sufficiently studied the various and numerous provisions of the said bill, to enable them to know, or to feel that they know, what they want to do with or how they want to vote upon all or many of the various and numerous provisions thereof; and

Whereas, we already have upon the Calendar of this House for consideration and yet unacted upon, a large number of important bills, in addition to some Special Orders, and upon General Orders of this House, some hundreds of bills of more or less importance yet to be given consideration in this session; and

Whereas, probably the vital interests of Minnesota will not be sacrificed if additional time is given to insure an even more thoughtful and careful consideration to a due and desirable re-organization of our state administration in the real interest of actual efficiency and economy in the future administration of the affairs of this state.

Therefore, Be It Resolved by the House of Representatives, that the Speaker of this House be and he hereby is authorized and empowered to appoint a committee of this House to consist of seven members of this House hereby duly authorized and empowered to duly inquire into and duly investigate into

the administration of each and every department, commission, board, bureau and office of the state administration, of Minnesota, and into the work and workings of each and every thereof, and into the relation of each thereof to the other thereof, and into the relation of the work of each thereof to the other thereof or the work or duties thereof, and into the co-relation of the work thereof and into the co-relation of the work of the employes thereof and into the necessity or the advisability of the continuance of any existing department or commission or board or bureau or office or into the advisability of the discontinuance of any existing department or commission or board or bureau or office or any employe thereof, or into the administration of each or either thereof and into the advisability and feasibility of a new co-relation thereof or of each or either thereof calculated to insure greater efficiency and economy in the administration of the future affairs of the State of Minnesota—calculated to make the administration thereof more business-like, more efficient and more economical; and to enable the said committee hereunder appointed to be able to be effective in its work, power and authority is hereby vested therein, and in each and every member thereof, to administer oaths, to summon witnesses, to compel the production of testimony, including books and records of any department or commission or bureau or board or office of the state administration and to summon and examine under oath the head of any department of the state administration or any subordinate thereof, or any person or party, believed to have knowledge of state administration affairs; also to hold public hearings relative to any matter as to which the said committee hereunder appointed may deem it advisable; also to employ all and whatever help, of any kind, the said committee may from time to time deem needful or desirable during the progress of its work—including a skilled accountant or accountants; and as a fund available for the purposes hereof the Chairman of the Committee on Appropriations of this House is hereby instructed to insert in one of the Appropriation bills of this Legislature the sum of fifteen thousand dollars out of which to pay the necessary expenses of the said committee and the compensation of its necessary employes—though not any salary or compensation to any member of the said committee.

All expenditures of the said committee shall be duly certified by its chairman and its secretary and duly audited by the State Auditor before payment thereof.

Said committee shall file with the Secretary of State on or before May 1, 1916, a full report of its doings hereunder, together with its recommendations, concisely set forth—though in detail—and therewith a draft of the measures of legislation recommended in its said report as, in the opinion of the said committee, will be entitled to the favorable consideration of the next Legislature, or the next Legislative session, sitting in Minnesota; provided, that if the Senate of this Legislature shall adopt any like or similar resolution creating a committee thereof, that then and in that case the committee appointed hereunder is hereby instructed to co-operate therewith.

Mr. Girling gave notice of debate, so the resolution went over under the rules.

Mr. Wefald moved that H. F. No. 25 be recalled from the Committee on Economy and Efficiency and the Committee discharged and H. F. No. 25 be indefinitely postponed.

Mr. Lydiard moved to amend; that H. F. No. 25 be recalled from the Committee on Economy and Efficiency.
